RUGER® 10/22®

CARBINE

Collector's Series

Packaged in a commemorative 50th Anniversary box with Collector's Series box decal, these Ruger Collector's Series 10/22® Carbine rifles include a Collector's Series pin, 10/22® 50th Anniversary bumper sticker, a replica of the original 1964 10/22® ad and a limited edition Ruger Collector's Series street sign.

In production for 50 years, the Ruger® 10/22® has become America's favorite .22 LR rifle. With proven performance, a legendary action and a renowned, reliable rotary magazine, the 10/22® has inspired a loyal following. The Ruger Collector's Series 10/22® Carbine commemorates a half-century of excellence.

One of a Kind, Limited Edition Collectible Sign – Only Available with this Model!

Fiber Optic Front Sight and Adjustable Rear Sight

"The Ruger 10/22 Rifle • 22 LR – Fifty Years • 1964-2014" Special Receiver and 50th Anniversary Logo Bolt Markings

Dillon's RF 100 Automatic Primer Filler

Eliminates the need for primer pick-up tubes!

Fills the primer tube while you reload!

Clear polycarbonate shield and protective housing

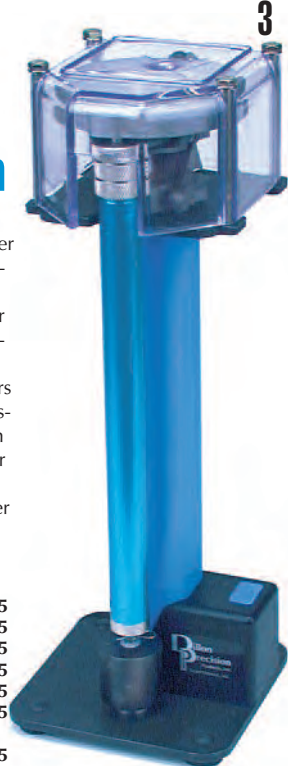

Dillon's RF 100 Automatic Primer Filler eliminates the task of filling primer pick up tubes. Now you simply pour your primers from their box into the top, press the blue button and watch it run!

In about two minutes the primers are inside the protective metal housing. That's about 30 rounds you can load while the RF 100 is doing your work for you!

The RF 100 is available for either large or small primers, and conversion kits are available at one low price of \$47.95 each.

We READ Our Mail!

It's rare that I e-mail anyone about the service I get. But I most recently I got around to setting up my reloading equipment. I moved to Nevada a few years ago and have been very busy with life. So when I took my three Dillon presses out of the boxes they came in and mounted them to the bench, I noticed how they needed some clean up and a few small parts replaced. Now, mind you they are close to 24 years old, so I didn't mind spending a little money on them as I have gotten my money's worth out of them over the years. It took a little time to reset and check the powder settings and all other functions, then to my surprise I noticed a "broken part." Now that's not bad, but the replacement part was not made or supplied any more by your company. I received a email back a day later saying that your company was sending me at NO CHARGE the update platform and pieces I need to complete my XL-650. Well, yesterday I went out and started cranking out some ammo. It and my Square Deal work awesome. Thanks for being a great company!

Your customer for life,

Douglas Frost – arguns4you@aol.com

Recently, I was hit by a reloading "crunch," where I wanted to get out a bunch of .303 rifle ammo right in the middle of a long run of .40 S&W on my Dillon XL650. I've done it before, but since I don't normally reload in a big hurry, it's always amazing to me how much ammunition I can crank out on the 650 when I want to. I was finished with a few thousand rounds of .40 in short order, and then quickly had the rifle rounds knocked out. I always feel good about my decision to buy the Dillon 650.

John Avelis, Jr. – White Heath, IL

Many thanks for the factual account of the battle of Alcatraz. Coincidentally, New York just released evidence items from Attica 71. The cover model [Stephanie] is one of the best ever.

Ed Dugan – 2024915200@mes-saging.sprintpcs.com

Mark, is Stephanie able to handle the recoil on that Benelli shotgun? Research has proven that scantily clad, well-defined models sell products such as clothing, alcohol, fragrances, even autos. Is it true for weapons? I guess the subliminal message if you're a male and use a weapon is that beautiful women such as Stephanie will beat a path to your door.

Jim Irish – jimcherylirish@comcast.net

SQUARE DEAL B

Our automatic-indexing progressive reloader designed to load moderate quantities of common handgun calibers from .32 S&W to .45 Colt. It comes to you from the factory set up to load one caliber.

Page 14

RL 550B

The most versatile reloader available, capable of loading over 160 calibers. An automatic casefeeder is available for handgun calibers. Manual indexing and an optional magnum powder bar allow you to load magnum rifle calibers.

Page 20

XL 650

Truly the state of the art, our XL 650 features automatic indexing, an optional automatic casefeeder and a separate station for an optional powder-level sensor. Available in all popular pistol and rifle calibers.

Page 30

SUPER 1050

Our commercial-grade reloader includes a swager to remove the crimp from military primer pockets, and is capable of reloading all the common handgun calibers and several popular rifle calibers.

SIG SCORES A TEN (+1) — SIG

Reviewed by Peter Caroline

Shortly after I moved to Arizona in the mid-1990s, I bought a used .45ACP SIG P220 from a member of the local Sheriff's Department. It was an older European model, with the magazine release at the base of the grip. It was accurate and totally reliable, and the only reason I eventually sold it was that someone offered me way too much money for it. We all have had guns that we later regretted selling, and wish we'd been able to keep them all. Lord knows, I've tried!

At the 2014 SHOT Show, I stopped by the SIG Sauer booth and checked out their latest .45 ACP pistol, the P227. Unlike my old P220, which had a 7-round magazine, the new P227 has a double-stack 10-round mag. I was particularly attracted to the Custom Shop P227 Carry SAS (SIG Anti-Snag) GEN2 model. This is a conventional DA/SA semi-auto, with a decocking lever where your right thumb (or left trigger finger) can reach it easily. It features a 3.9" barrel, dehorned frame and slide, and a non-railed frame. As an improvement on my P220, the P227 had a one-piece grip, with a built-in lanyard ring and no grip screws to loosen and

fall out. Surprisingly, the grip is quite comfortable, and nowhere near as thick as I'd imagine a double-stack .45 to be. I wear a size Medium glove, and the P227 grip was quite manageable and very comfortable. It has a non-slip stippled surface, and the front of the grip frame is nicely checkered, and recessed at the rear of the trigger guard. The front of the trigger guard is checkered, for those who find that grip useful. The sights are SIGLITE® night sights, with enough daylight showing on either side of the front sight. The rear sight is squared off in the front, so you could rack the slide on your belt or a hard surface if necessary. The gun is no lightweight, although at 30.5 oz., it's about half a pound lighter than a 1911.

When I returned home from the Show, I sent a note to SIG, requesting a sample P227 SAS GEN2. It took a couple of months before one was available for test, but it was definitely worth the wait. When I opened the substantial black hard case, there was the P227 plus an extra magazine, the inevitable cable lock, owners manual and a rather oddly configured black polymer cleaning rod. It turns out that the handle of this device also serves

SAUER P227 CARRY SAS GEN2

as a tool for removing the one-piece grip (although this function is not mentioned in the otherwise very complete owners manual).

Firing the P227 at the range was a very rewarding experience. This pistol eats everything quite happily. I brought along Winchester's WIN 1911 230-grain JHPs, Federal Premium 230-grain Hydra-Shok JHPs, handloaded 230-grain Lead Round Nose, some old WWII steel-case rounds, some odd 185-grain Magnus wadcutters, which wouldn't work in a friend's 1911, and some of my own very hot 155-grain wadcutter rounds that I had handloaded years ago for a compensated pin gun. All were happily accepted without a hiccup. And all delivered nice tight groups. The hand-filling grip seemed to reduce the recoil, or at least make it less noticeable.

Single action trigger pull was right around 4-1/4 pounds; initial double action, about 10 pounds. There was about 1/4" of light take-up on the single-action pull. This is a very easy gun to

shoot well, with virtually no learning curve. Disassembly is very simple, and identical to the drill for every other full-size SIG Sauer pistol. After unloading the pistol and checking the chamber, you retract the slide to the stop and lock the slide open. Check the chamber again to make sure it's unloaded, then rotate the takedown lever to a 6

o'clock position. You can now let the slide move forward, and move the complete slide assembly off the frame. Now, move the recoil spring guide forward slightly, and lift it out along with the recoil spring. The barrel can now be removed from the slide. No surprises.

At \$1,149 MSRP, the SIG Sauer P227 Carry SAS GEN2 fits in the same price class as a mid-level 1911, and shoots as well as, if not better than most in that category. It also holds three more rounds. Speaking as the owner of an alarming number of 1911s, I am sorely tempted by this pistol.

SIG Sauer, Inc. • 72 Pease Blvd.

Newington, NH 03801

603-610-3000 • www.sigsauer.com

This is a very easy gun to shoot well, with virtually no learning curve.

Pocket Carry: Better Pockets - Not Smaller Guns

Constant Companion Clothing is Designed for Pocket Carry of Duty Guns

For years, gun owners have been compromising on small pocket pistols that are comfortable to carry, but lack the capacity and power of duty guns. "I tried a variety of concealment techniques and found that pocket carry was the

most comfortable and accessible way for me to carry, but I did not want to compromise on firepower," said company founder, Brandon Trevino. "I knew what I needed was not just a bigger pocket, but a better pocket."

The Constant Companion clothing line features a front pocket that is over 16" deep and constructed from ballistic nylon. It's lint free, snag free, padded and contoured to maintain the upright orientation of your weapon. Unlike traditional pants, the gun

rests on your outer thigh, rather than on the top of your leg, making it easier to move and sit, while the cargo pocket prevents printing. The pants allow for rapid one-handed access to most full-sized and compact handguns. The pants are **Made in the USA** and available online at www.concealedcargo.com.

BL 550 Dillon's Basic Loader

\$259⁹⁵

K96-15399

Reloading Dies and Caliber Conversions sold separately (see the back of the order blank in the center of *The Blue Press*).

Pictured with optional accessories:
Strong Mount K96-22051 \$47.95

Dillon's RL 550B has long worn the title of "The World's Most Versatile Progressive Reloader," and stripping it down to its most basic form – Dillon's BL (Basic Loader) 550 – adds a whole new dimension of versatility for the shooter/hunter who needs to feed several rifles.

The BL 550 is essentially an RL 550B without the automatic priming and powder systems. Capable of loading over 160 calibers – just like the RL 550B – it uses any manufacturer's standard 7/8" x 14 reloading dies. It's priced comparably with other manufacturers' turret presses; yet unlike them, it's fully upgradeable to Dillon's Progressive RL 550B loader!

The interchangeable toolhead (*Page 15*) makes it quick, easy and inexpensive to change calibers. For example, if you load .30-06 for elk, .243 for deer and .22-250 for coyotes, you don't even have to change the shellplate. You simply pull two pins and swap the toolhead with your .30-06 dies to another toolhead with your .22-250 or .243 dies in less than 30 seconds! The additional toolheads are \$22.95 each, or \$20.95 each if you buy three or more – if you load for several rifles it's a no-brainer! Once you get your dies adjusted, you'll never have to re-set them.

A powder measure adapter (*bottom right photo*) is available if you want to use a manual measure that you already own. Or, if you want to weigh every powder charge you load, it's easy – you can use a powder trickler with the powder die/funnel assembly that comes with the BL 550.

PRIMER SYSTEM EARLY WARNING KIT

Allows you to focus on loading instead of worrying about failing to seat a primer, and is an easy slip-on attachment to the auto prime system.

K96-20302, \$25.95

AUTO POWDER SYSTEM

Accurate to within 0.1 grain, our Automatic Powder Measure is world renowned for its charge-to-charge consistency.

K96-20251, \$87.95

OPTIONAL MAGNUM RIFLE POWDER BAR

K96-21353, \$29.95

AUTO EJECT SYSTEM

Greatly increases your ammo production capabilities and adds a Cartridge Chute/Bracket and a Cartridge Bin to your reloader.

K96-22120, \$30.95

AT 500 POWDER DIE

Extra powder dies allow you to move your powder measure from toolhead to toolhead without changing the "belling" adjustment.

Powder Die: K96-16629, \$19.95

Overize Die: K96-16626, \$19.95

Plastic Funnel: K96-16617, \$5.95

POWDER MEASURE ADAPTER

If you load rifle cartridges with long-grain extruded powder, you can now use any manufacturer's powder measure with 7/8" x 14 threads on your RL 450, AT 500, BL 550 or RL 550B. (*Requires the use of an RL 450 powder die – see below.*)

K96-20029, \$22.95

Square Deal B with Wrench Set	K96-19441	26.95
Dipped Ball-End Hex Wrenches	K96-11483	17.95
One-Inch Bench Wrench	K96-10842	7.95
Square-Deal-Only Wrench	K96-19970	8.95

Dillon's Strong Mounts

increase your machine's "footprint" to over 10",

spreading the load over the whole bench instead of stressing the leading edge. For XL 650 owners with limited overhead clearance, the XL 650-only mount raises the machine 6" above the bench top. All mounts come with all the fasteners necessary to mount your machine and are coated with a durable black wrinkle finish.

RL550/XL650	K96-22051	\$48.95
XL650-only	K96-22052	45.95
Square Deal "B"	K96-22223	64.95

Dillon's Bullet Tray is a simple, shallow aluminum bullet tray designed and located for economy of motion. Our tray works on the Square Deal "B", RL 550B and XL 650 when equipped with the RL 550/XL 650 Strong Mount, and a separate kit is available for the RL 1050.

Bullet Tray Kit	K96-22214	\$41.95
RL 1050 Tray Kit	K96-22215	41.95

Dillon's "Belted Magnum" Powder System

features a maximum-capacity steel powder bar that can dispense more than 100 grains of extruded IMR powder. Magnum rifle cartridges can require from 70 grains to well in excess of 100 grains for a single charge. We tested this system with various extruded rifle powders and found that powder charge variations stayed within plus-or-minus three-tenths of a grain.

Magnum Powder System
K96-97126 \$142.95

Dillon's Low Powder Sensor

provides an audible and visual reminder when it's time to refill your powder reservoir. When the powder level drops to about 1,000 grains remaining in the reservoir, a buzzer will sound and a bright red LED will light. Designed to fit all Dillon powder measures. Made of clear polycarbonate, it simply replaces the die-cast metal lid supplied with the measure, and operates on two AAA batteries (included).

K96-16306 \$41.95

Dillon's Roller Handle

gives your reloader an entirely new "feel," reduces operator fatigue, and makes primer seating easier.

Alum. Roller	K96-17950	\$45.95
Plastic Roller	K96-22183	40.95

Quick-Change Cover for use with powder measure. **K96-11143 \$14.95**

With Dillon's RL 450 Upgrade components, you can, either all at once or one assembly at a time, upgrade your RL 450 reloader to an RL 550B!

Dillon's Case Preparation Equipment

CV-2001
K96-20493
\$188.95

CV-750 K96-19455 \$144.95

CV-2001 – The Industry Standard

Dillon's CV-2001 Vibratory Case Cleaner is the largest in the industry. Its 12-1/2 quart bowl capacity will allow you to polish up to 1,300 .38/.357 or 550 .30-06 cases per hour.

Not only is our capacity greater, but our motor is larger in horsepower, internally cooled, thermally protected, and turns on precision ball bearings. This is no "hobby" machine!

The bowl and base are constructed of 7/32" thick injection molded high-strength polypropylene which is impact and abrasion resistant.

Case/Media Separators

After we sold thousands of our famous first generation FL-2000 case cleaners, customers who had purchased them began asking us to address the problem of separating the cleaned and polished brass from the cleaning media.

We knew from the beginning that the simplest method of separating would be a rotating squirrel cage, but we had to find a design we could manufacture economically. Our problem was that it had to be BIG – big enough to handle the entire load of the FL-2000 series case cleaners.

The solution was an injection molded reversible part. Simple, and it works great.

Our device is large, 10" x 14", and will hold more than 1,600 .38 Special cases. It sits on a large media collection tub that measures 18" x 22". The tub keeps the mess off the floor and bench.

It's fast – so fast it will remove media from 1500 rounds of .223 brass in a matter of seconds.

Limited Work Space?

Dillon's introducing the new CV-750 heavy duty Vibratory Case Cleaner for those with limited space. This new case cleaner uses the same motor as the CV-2001 and is every bit as tough – just more compact. To accompany the CV-750, the CM-500 does the same job as the larger CM-2000 Case/Media Separator; and, like the CV-750, handles just about half the capacity of the larger unit.

CM-2000 Case/Media Separator K96-20675 \$73.95

CM-500 Case/Media Separator K96-21045 \$46.95

Although scaled down in size, these two pieces of equipment are every bit as tough as their full-sized counterparts. We used the same materials in their construction and designed them to work just as hard – and do it in a more compact area!

Attention European Customers:

Case Cleaners are available in 220 volt!

Euro CV-2001 K96-22047 \$213.95

Euro CV-750 K96-19473 \$169.95

All Dillon CV-2001 and CV-750 Vibratory Case Cleaners have a One-Year Warranty on the electric motor.

Rapid Polish 290

SHINE? You bet your brass! Dillon Precision has developed another exciting new product to make your reloading faster and easier. Rapid Polish 290 is the first cartridge case finish designed specifically to bring a brilliant shine (20 percent brighter than tumbling media alone) and a protective coating to reloaded

ammunition. Simply add several capfuls to the media in your tumbler and run. Rapid Polish 290 has a great residual value and stays in your tumbling media. You'll use less each time you clean your cases.

Rapid Polish 290 contains no ammonia, so it won't weaken brass cases!

Rapid Polish 290

8 oz. bottle. **K96-13804** **\$8.95**
Case (20 pc.) **K96-20255** **135.95**

Dillon Case Lube

Rapid Lube 5000, Dillon's aerosol cartridge case lubricant, has been replaced by an "environmentally correct," non-aerosol case lube. It works the same: Simply lay your cases out, spray lightly with one or two passes and you've done it. No mess, no guesswork. Within minutes the lubricant distributes itself around the cartridge

cases and you're ready to load. Try a bottle. You'll never use a grease pad again.

D.C.L. Dillon Case Lubricant

8 oz. bottle **K96-13733** **\$8.95**
Case (20 pc.) **K96-20256** **135.95**

Half and Half 10 bottles of polish /10 of lube
Case (20 pc.) **K96-21375** **\$135.95**

Don't Forget Polishing Media!

Crushed walnut hull polishing media – quickly cleans even the dirtiest of cases.

15-pound bag **K96-13287** **\$23.95**

Ground corn cob polishing media – the best there is for that final polish.

Mernickle Holsters' Conceal-Carry Performance Series

If Cowboy Action Shooting is your game, why not CARRY the gun you shoot the most? These holsters can be worn strong side, appendix carry or cross draw and are fully molded. Now also available for J-Frame S&Ws.
 4-3/4" SA Colts/clones **K96-11560**
 4-5/8" Ruger Blackhawk **K96-15765**
 Ruger LCR **K96-29030**
 2" J-Frame S&W Rev. **K96-15764**

"Wild Bunch" 1911 Holster & Mag Pouch

This holster/mag pouch was designed in a joint effort by World Cowboy Action Shooting Champion Gene "Evil Roy" Pearcey and World Fast Draw Champion Bob Mernickle when SASS introduced the "Wild Bunch" category for Cowboy Action Shooting.

When these two champions put their heads together, they created a holster and mag pouch that look like they were made at the turn of the century, yet feature state-of-the-art speed and accuracy. The holster is hard molded so as not to lose its shape even after thousands of draws. It spaces the pistol's grip frame

away from your body so you'll get a full combat grip, and the holster includes the T-nut lock system to ensure that it stays in place during a draw.

The mag pouch spaces the magazines so when you grab one mag, the second isn't in your way; above the belt line so the belt doesn't interfere with the draw; and at the max depth required by the sport - and no more - so you'll get a full grip and the ability to index with your forefinger for a rapid mag well insert.

1911 Holster **K96-19947** \$139.95
 Mag Pouch **K96-19946** 44.95

Dillon's New Rapid Trim 1500 Case Trimmer ²³

Dillon's RT 1500 shown installed on an XL 650.

The RT 1500 is used just like a standard size die. The big difference is that while you are pushing the case into the die to size it, an electric motor driving a carbide cutter at 4500 RPM is trimming the case to length. Chips are drawn off through a vacuum manifold that clamps to the outside of the special size/trim die. (Vacuum cleaner and hose not included.) The RT 1500 is equipped with a quick-

disconnect power cord; and it can be used on any standard reloader, single stage or progressive.

The RT 1500 Case Trimmer Assembly **K96-62164** is **\$327.95**. (Available only in 110 volt 60 hz.) Size/trim dies are sold separately (Please see chart below). Replacement carbide cutting blades, **K96-13141**, are **\$19.95** each. Upper lock rings, **K96-13559**, are **\$4.99** each.

MILITARY BRASS?

Eliminate the "Grunt Work" with Dillon's Super Swage 600

Until now, reusing military brass, with its crimped primer pockets, has been a tedious task. The Dillon solution is a remarkably simple device that bolts to your bench and allows you to swage the primer pockets with speed and ease. The case is supported from the inside, so you won't be tearing the rims off the brass. A tool steel, hardened swage rod (easy to change from large to small primers) simply rolls the crimp away. No reaming is necessary. Our unique compound cam leverage system assures not only ease of operation, but perfect alignment with each and every round. Sound simple? It is and it works. What's more, it's inexpensive. The Super Swage 600 comes with large and small swage rods.

The Safepacker

THE WILDERNESS' SAFEPACKER™ HOLSTER is the ONLY mode of concealed carry that I have personally witnessed save a man's life. It's a long story, but suffice it to say that the element of surprise afforded by the Safepacker did the trick. The folks at The Wilderness contend that the Safepacker™ is the best, most versatile and utilitarian holster in the world. I tend to agree, because the one you see pictured at left...is mine.

Mark Pixler, editor

The Safepacker can be hand carried like a day planner, equipped with a shoulder strap (not included), slipped into an attaché case, opened with the top flap stuffed between the mattress and box springs on your bed, strapped to a seatbelt, attached to a sun visor, clipped to a backpack, or worn on your hip as a very low-profile "un-holster."

- "Government Model" Safepacker, RH **K96-11703** **\$89.95**
"Government Model" Fits: Colt Government Model, GLOCK 17/18/20/21/22, SIG P-220/226, Beretta 92/96, HK USP-45, 4" K-Frame, 3" N-Frame, etc.
- "Commander" Safepacker, RH **K96-11702** **\$99.95**
"Commander" Fits: Colt Commander, SIG P-245/229, HK USP-45 Compact, Tokarev, etc.
- "Officers" Model" Safepacker, RH **K96-11701** **\$99.95**
"Officers Model" Fits: Colt Officers' Model, GLOCK 19/23/30/32/36, Para P-12, etc.
- "GLOCK 26/27" Safepacker, RH **K96-11700** **\$89.95**
"GLOCK 26/27" Fits: G 26/27, Springfield XD Subcompact, Makarov, etc.
- "J-Frame" Safepacker, RH **K96-11699** **\$89.95**
"J-Frame" Fits: S&W Centennial, Taurus M85, Walther PPK, KelTec P-11, etc.
- "Mustang" Safepacker, RH **K96-11698** **\$89.95**
"Mustang" Fits: Colt Mustang, Pony, KelTec P-32, Beretta Tomcat, etc.

Close & Ready Bedside Holster Caddy

Holster NOT Included

The key to the successful gunfighters of the Old West was not so much the weapon of choice, but rather the holster. How quickly the weapon could be retrieved, aimed and fired was the difference between survival and becoming a statistic. The Close & Ready Holster Caddy provides a faster and safer way to protect your family. It works with most existing holsters and slides easily between the mattress and box springs on either side of your bed.

K96-18046 **\$29.95**

The Pistol Sheath by Center of Mass LLC

THE WILDERNESS TACTICAL PRODUCTS

The Wilderness' Original Instructor Belt is an incredibly strong belt with a specially designed "V" ring buckle. Imitation is the sincerest form of flattery, and the marketplace is full of copies of this belt, but none can compare to the original.

We're selling the five-stitch version, which has extra stitch lines to make the belt more rigid vertically in

order to better support holsters, magazine pouches and other gear. This belt is a favorite with law enforcement, military personnel, firefighters, paramedics, etc. Note: The 1.75" belt works best with BDUs or jeans. The 1.5" belt features a scaled-down buckle.

101 Classic Firearms by John Marshall 33

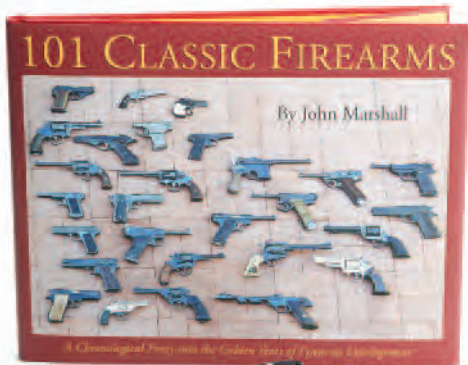

Dillon Precision announces the release of John Marshall's new book **101 Classic Firearms: A Chronological Foray into the Golden Years of Firearms Development**, a compilation of the author's popular articles appearing in *The Blue Press* since 2007.

101 Classic Firearms is sure to be a welcome and prized addition to the library of any serious firearms aficionado.

Published by Dillon Precision, and printed and bound in the USA, **101 Classic Firearms** is a high-quality full color 11.5" x 9" hardcover with 224 pages packed full of insights and history on

some of the world's most important firearms.

About the Author: John Marshall is an accomplished photographer and freelance writer whose articles have appeared in *The Blue Press*, *Gun Digest*, *Guns & Ammo's Handguns*, and *American Gunsmith*. An expert on firearms, he is also a member of the Remington Society of America, the Smith & Wesson Collectors Association, the Smith & Wesson Historical Foundation and the American Gunsmithing Association. He is also an endorsement member of the National Rifle Association.

Price: K96-40133 \$29.95, Autographed K96-97130 \$34.95

Secure Firearm Products Secure-Mat

The Secure-Mat features a magnetic corner that keeps small parts in place when you field strip your firearm for cleaning. Its soft, non-slip neoprene construction protects both your firearm and the work surface. It's ideal for when you're shooting an out-of-town match and have to clean your pistol in a motel room!

K96-19257 \$11.95

Dillon's Pistol Die Sets

Size Die

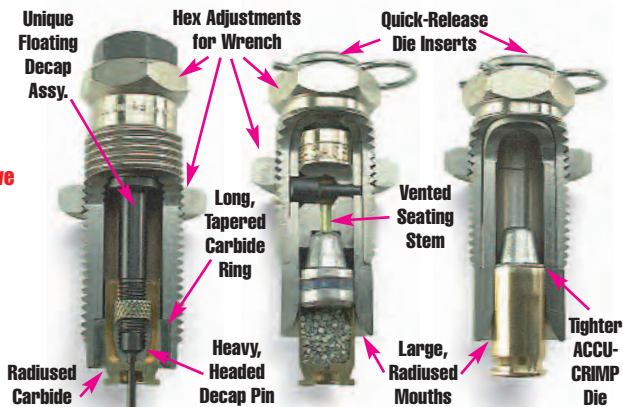

- Floating Decap Assembly Eliminates Primer "Draw Back"
- Long, Tapered Carbide Ring
- Radiused Opening Makes Progressive Loading Smoother

Seat Die

- Reversible Seating Stem Makes it Easy to Change Bullet Styles

Crimp Die

- Quick Disassembly, Easy to Clean

Sizing/Depriming Die

Our sizing/depriming dies feature a unique "floating decap assembly" with a snap spring that throws the spent primer off the pin and eliminates the problem of primer "draw back" that often occurs when decapping military brass. The primary feature of Dillon's size die design – the long, tapered carbide ring with a radiused opening – remains unchanged.

That radiused opening, and its importance to progressive reloading, is one of the reasons why our seat and crimp dies are better. We found a way of manufacturing these dies that has enabled us to make the lead-in radius even bigger! The bigger radius makes progressive loading with our equipment even smoother – but that's still only a part of the story.

Bullet Seating Die

Our new quick-disassembly seat die allows the user to disassemble and clean the seat die without losing adjustment. In this manner, bullet lube and shavings can be quickly removed from the die, thereby guaranteeing a constant seating depth. We've incorporated a "flip-flop" seating stem and a clip that enables you to remove the die insert and change the seating stem from round nose to semi-wadcutter without unscrewing a seating stem out of the die body. We've always included both types of seating stems, but the new double-ended design makes it a simple matter to remove a pin, reverse the seating stem, make any minor seating depth adjustments that may be necessary and go on loading in a fraction of the time it used to take.

Crimp Die

We've made it easy for you to remove the die insert for cleaning without having to change the critical crimp adjustment. Once your crimp die is set for the proper amount of crimp, you'll never have to change it. This is especially good news for all of you who load lead bullets! Before, you had to unscrew the die from the toolhead and disassemble the die in order to remove any bullet lube or lead residue. Then, you had to start from square one to re-adjust the crimp. Those days are over. All you have to do now is pop a clip and the die insert drops into your hand for cleaning.

NOTE: All Dillon Pistol Die sets include our sizer/ decap die, seat die and a separate crimp die. (Taper crimp for autos; accu-crimp for revolvers.)

Dillon's Rifle Die Sets

Size Die

- Full-length, to minimum tolerance
- Carbide expander ball
- Features stuck case remover

Seat Die

- Designed to hold bullet straight throughout the seating process

Taper Crimp Die

- Centers case neck and body for a more uniform crimp

Dillon Three-Die Rifle Die Sets include a sizing/depriming die, a bullet seating die and a taper crimp die. Dillon Two-Die Rifle Die Sets include a sizing/depriming die and a seat/crimp die.

Sizing/Depriming Die

The sizing/depriming die is full-length, to minimum tolerances, sizing cases down to function in semi- and full-automatic firearms. We strongly suggest that a headspace case gage be used to correctly adjust the size die.

For high volume users, such as commercial reloaders, law enforcement agencies, and high power or service rifle competitors, we also offer .223 and .308 die sets with a full-length carbide sizing die. Lubrication is still required, but the increased scratch resistance and die longevity of carbide are of great benefit to these groups of users.

The depriming assembly includes a carbide expander ball for "squeak-free," effortless neck expansion. This expander ball is located in the middle of the depriming stem to take advantage of superior initial leverage for easier extraction.

In the event of a stuck case, the design of the depriming assembly allows it to function as a stuck case remover.

Bullet Seating Die

Our bullet seating die is internally designed to keep the bullet straight throughout the seating process. Once properly adjusted, the only measurable runout will be that which is inherent in the bullet.

Taper Crimp Die

The taper crimp die is also specially configured to center both the case neck and the case body, thereby aligning the entire cartridge for a more uniform crimp. Dillon Rifle Dies are designed to meet the more rigid requirements for both accuracy and precision demanded by today's marksman.

A taper crimp die is preferred for loading ammunition intended to be used in semiautomatic firearms with detachable box magazines, and in lever-action firearms with tubular magazines.

Dillon Rifle Dies (Three-Die Sets)

The Walther PPX

"Imagine a pistol with the Walther banner on the slide that has a suggested retail price of less than \$500."

By J.B. Wood

Imagine a pistol with the Walther banner on the slide that has a suggested retail price of less than \$500. Quite unlikely, right? Well, here it is. It's the Walther PPX, and there were no shortcuts to achieve the moderate cost. You still get the legendary Walther quality, and a lot of excellent features.

When you first look at it, the rather sharp angle of the back of the grip-frame may seem a little odd. Then, you take it in hand, and it feels perfect. At upper rear, there is a deep incurve, always a good feature. At the front, room for all three fingers, even if you have large hands. The polymer frame has a good stippled surface.

The front of the trigger guard is vertical and cross-grooved, for those who still use that obsolete version of the two-hand hold. The trigger has vertical grooves, but they're not deep enough to be irritating. Forward of the trigger guard there is a standard rail, in case you want to mount a laser or light.

The manual controls are simple and perfectly located. The slide latch, at the top of the grip on the left side, has minimal protrusion. The push-button magazine release is in the usual location. The only other external control is the takedown

latch, forward on the left side. Turn it downward, and the slide assembly comes off toward the front.

With its DA-Only trigger system, the PPX doesn't need a manual safety. There is, though, an automatic internal firing pin block that is cleared only in the last fraction of the trigger pull. The hammer, visible at the rear of the slide, is also an indicator. When you see it tip back, you know it's about to fire. I'm glad to report that there is no annoying magazine-disconnect safety.

Functionally, the trigger system is "DA-Only," but it's different. When you cycle the slide to

load, you can see that the hammer goes to vertical at the back. Inside, though, the sear has detained the hammer strut and spring. Thus, in the first part of the trigger pull, you are only compressing the trigger spring. Then, you come to a nice single-action release. Pulled straight through, DA, you won't notice it.

The sights are excellent. Three white dots, square-picture, and the rear one is laterally adjustable. The locking system is falling-barrel, the movement controlled by an angled track in the under-lug. In the ejection port, at the rear edge of the barrel, a small window can be checked for a chambered round.

The last number at the bottom hole of the magazine is "16." Thus, with a spare mag, you will have 32 rounds on hand, even if you don't load the chamber. The PPX is also offered in .40 S&W, and in that version the capacity is 14 rounds. I have never liked the "10mm Lite." More felt recoil, less accuracy and fewer rounds.

For those who like to have the numbers, the PPX weighs 1.7 pounds. The overall length is 7.3", height is 5.6", and width is 1.3". Barrel is an even 4". For concealed carry, it's a little large. Perfect, though, for home or car, and also as an on-duty piece for law enforcement.

Trying out the PPX at the range, I used two high-performance loads: The DPX Plus-P from CorBon, and the Hornady CD-FTX. The distances were around 15 yards and the classic-encounter 7 yards. It was all done standing, with a two-hand hold. At the closer range, firing quickly, a well-centered 3" group. At the longer distance, staging the trigger to SA style, one amazing group was 1.5".

An early ad for the PPX described it as "a tough workhorse at a value price." No kidding. Suggested retail is \$449 to \$499. And, as noted above, this "workhorse" also delivers target pistol accuracy.

Gun-tips®

Gun-tips® Extended Reach Firearm Cleaning swabs by Swab-its® revolutionize the way you clean your gun. The foam tips are lint free, reusable and ideal for cleaning trigger assemblies, slide rails, springs, extractors and anywhere else space is tight. 24 per package.

K96-12583 \$9.99

Bore-Whips™

Bore-Whips™ .17 and .22 caliber (pictured) by Swab-its® are ideal for air rifles, rimfires or any other .17 or .22 caliber firearm that's difficult to clean from the breach. The foam tips are reusable and the handle functions as an empty chamber indicator.

Comp-Tac's Trojan Horse Long Gun Case 39

The Trojan Horse Long Gun Case is the first of its kind: a safe, comfortable, simple and unobtrusive way to carry your long guns with you. No longer do you need to worry about a casual observer spotting you with a "Gun" case as you transport your long guns to and from your car. Instead all they will see is a person with a sports bag. It measures 36" Long, 4"-15" Wide, 4" Deep and features rigid side panels that provide concealment with no printing; an adjustable, padded shoulder strap with side-release buckle on either end; a heavy duty zipper with tactical speed pull attachment for quick deployment; inside divider with Molle straps; and two inside zippered pockets. Will hold up to 20" long barrel with collapsible stock.

Standard Trojan Horse Long Gun Case **K96-19388 \$75.00**
 Heavy Rated Trojan Horse Gun Case **K96-16229 100.00**

ADCO SUPER **ATHUMB®** offers models for popular centerfire pistols and 10/22 style magazines.

AP Custom USA Shotshell Carriers/Caddies, Mag ID Kits

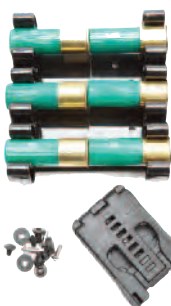

AP Custom USA's Shotshell Caddies are 100-percent machined from solid billet aluminum. The **4x4 Shotshell Caddy** holds four 2-3/4" 12 Ga. shells in two adjacent slots. The 4x4 is designed for loading four shells at once, either strong- or weak-handed. The **3x3 Shotshell Caddy** holds three 2-3/4" 12 Ga. shells in two adjacent slots.

The **QL/4 Shotshell Carrier** is a four-round 12 Ga. "quad-load" system consisting of a single QL shell carrier mounted to an adjustable billet aluminum backer plate on a Blade-Tech Tek-Lok. The QL/4 backer plate allows the shooter to adjust the angle of the QL to his or her liking. The backer plate is also drilled and tapped to accept Safariland ELS and Blade-Tech MOLLE attachments. The **QL/8 Shotshell Carrier** is an eight-round 12 Ga. "quad-load" system consisting of two QL/4 shell carriers.

AP Custom USA's **Mag ID Kits** enable you to color code and number your P-Mags and pistol magazines.

TACCOM, LLC Tactical and Competition Accessories

TACCOM, LLC's Duaload Shotshell Holder is available in 2-, 4-, or 6-Shell versions and can be customized to carry your shotgun ammo in several configurations. The 2Up version can be either attached to a belt or MOLLE gear, and the 4Up and 6Up versions feature a BLADETECH Tek-Lok™ Universal Belt Clip (included) that can be attached at various angles. The Duaload allows you to grab two shotshells aligned in such a manner that it makes it easy to load two at a time into your shotgun.

2Up Belt/MOLLE	K96-19530	\$9.95
4Up w/Tek-Lok™	K96-19531	29.95
6Up w/Tek-Lok™	K96-19532	34.95

TACCOM, LLC's Quaload Shotshell Holder is a serious game changer! It's so radical that they're patenting the device. The Quaload holds the 2 columns of shells next to one another, you can't get any closer than having them touch. No other quad load device can do this! This allows for you to control how the shells come out of the holder and not have to worry about rim overlay...the rims are already overlapped in the correct position!

4Up Quaload Shotshell Holder	K96-19543	\$39.95
8Up Quaload Shotshell Holder	K96-19544	69.95

Original **WWII Soviet Sniper**

The Most Effective, Most Feared Sniper of WWII.

SAVE YOUR BRASS!

Pick up your brass the easy way! This takes the hard work out of policing up your brass. No more aching back from bending over or kneeling at the range!

K96-21894 \$44.95

The **SHELLSORTER** is a simple product designed to reduce the time you spend sorting brass, allowing you to enjoy more time reloading and shooting. The **SHELLSORTER** is comprised of three pans designed to sort several common calibers. The fastest way to sort is to stack all three of the pans together on a common five-gallon bucket, yellow pan on top and black on the bottom; in that way, with a few shakes all your brass is sorted by caliber at the same time. The **SHELLSORTER** is made of ABS, a strong plastic that will give a lifetime of service.

K96-19972 \$39.95

Competition Reloading with Brian Enos guides you through a complete step-by-step reloading process for IPSC, Steel Challenge and NRA Bianchi Cup style shooting. Using a Dillon Precision XL 650 reloader with CP brass and CP bullets, Enos demonstrates proper reloading techniques for the most popular loads used by the top shooters. Enos is, of course, a champion himself, winner of the Masters Competition, the NRA Bianchi Cup and a top contender in the USPSA for many years. Run time: 80 minutes.

K96-14341 \$19.95

'Plan B' Day Planner

Dillon's "Plan B" Day Planner Holster holds a handgun and a spare magazine or pepper spray, yet it fits in with business clothing and won't draw undue attention. It looks like a typical day planner, but inside there's a holster that's adaptable for either right- or left-hand draw. It fits most .380, 9mm, .40 and .45 caliber autos, including: Beretta, Colt, GLOCK, HK, Kahr, Kel-Tec, Ruger, Taurus, SIG, and Smith & Wesson. Will also hold small-frame revolvers with two- to four-inch barrels.

"Plan B" Day Planner

K96-10252

\$24.95

Concealed Carry Tote⁴⁷

\$45⁰⁰

K96-18193

Dillon's Concealed Carry Tote accommodates all the tools you need to survive the urban jungle!

This low-profile carry case looks like a mild-mannered-computer-nerd accessory, but it's designed for your pistol as well as your PC! Made of rugged fabric, with heavy duty zippers on all three main compartments – one designed to hold a laptop computer, one for folders and paperwork, and one in the middle for a handgun.

Inside the case are pockets and pouches that will hold spare magazines as well as folding knives, letter openers, flashlights, cell phones, full-sized 8.5" x 11" paper note pads, etc. Measures 13.5" x 11.5" x 6.5" deep.

TUFF PRODUCTS MAG POUCHES

Front view with flap.

Front view without flap.

Rear shows loops and Molle fasteners.

Tuff Products Magazine Pouches are the most versatile we've ever seen. They can be worn on a belt or attached to anything that has a MOLLE fastener system; for instance, the Dillon Range Bag, a tactical vest or body armor carrier. Available in black or coyote brown.

THE FUTURE OF THE

Review by Barrett Tillman

Author Frank Minitzer, an avid hunter, has excellent firearms credentials, including frequent articles in *Outdoor Life* and *American Hunter* plus numerous evaluations of the arms industry in *Forbes*. His books include *The Politically Incorrect Guide to Hunting* and *Saving the Bill of Rights*. Thus, he brings extensive background to his new study, *The Future of the Gun*.

Like Minitzer's previous books, his latest is published by Regnery, the nation's leading outlet for conservative thought, with such authors as Newt Gingrich, Ann Coulter, and Michelle Malkin. (Full disclosure: in May Regnery History published my first-ever account of the Fifteenth Air Force in Italy during WW II.)

Organized into ten chapters in three parts, *The Future of the Gun* addresses current and emerging firearms technology; pro- and anti-gun arguments; and a look into the near and long-term prospects for firearms ownership and use.

Minitzer organizes his material in logical, easy-to-follow fashion while providing an enormous amount of information. Serious readers will spend some time examining his extensive notes and sources, which provide compelling pro-gun arguments and refute numerous anti-freedom assertions. A caution, however – as always in discussing controversial subjects, logical arguments will only sway those who are objective. Ideologues on any/all sides are seldom swayed by mere facts.

The only criticism of the text is the author's habit of injecting himself into the narrative. Time after time he says, "Joe Blow tells me" or "I pick up the AR-15 and say...." The phraseology is unnecessary and can distract from the intended point. Editing could have shortened those passages to, "Joe Blow said."

However, one of the most illuminating and enjoyable segments is Minitzer's 2014 SHOT Show interview with novelist Stephen Hunter. Minitzer describes him as "cynical and sarcastic,

amused with human nature," though more often Hunter is disarmingly self-deprecating and funny. Certainly Hunter is a rare bird: a fervent shooter who earned a Pulitzer Prize while working on *The Washington Post*.

Minitzer's interview traces Hunter's evolution from a self-confessed "leftist hippie with long hair" into the creator of iconic fictional sniper Bob Lee Swagger. Hunter describes his transition by stating, "there was something fundamentally dishonest about my anti-gun views."

Steve Hunter's evolution (some might say "mutation") from antigun hippie into the world's

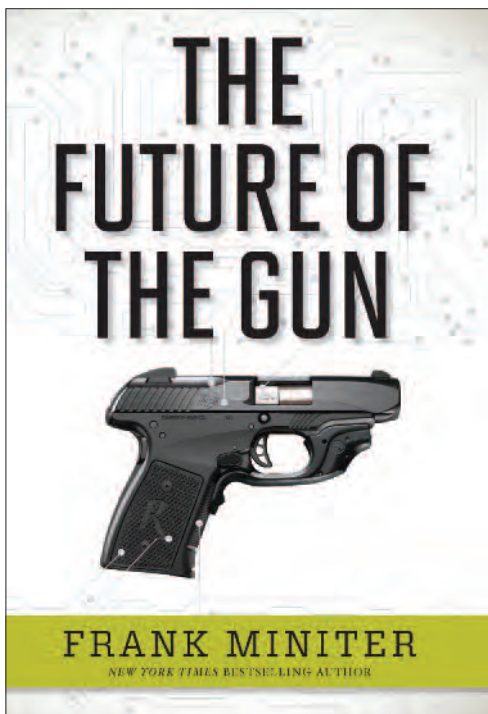

foremost firearms novelist holds lessons for others. Elsewhere, Minitzer demonstrates how individuals who grew up with no firearms background – and more importantly, with negative childhood environments – learn the benefits of responsible gun ownership. The author relates how a Pennsylvania businessman mentored an inner city kid by showing the positive side to gun ownership, especially the responsibility involved.

The book also describes two diverse gun worlds – the disciplined marksmanship culture of *Blue Press* readers and the crime-ridden "gangsta" environment that absorbs so many youths. Obviously it remains to be seen whether the nation can

resolve the vast chasm between the two.

Minitzer addresses current technology in readable detail, ranging from the largely unworkable notion of ballistic fingerprinting to 3-D printer produced firearms and "smart" guns that can be programmed for individuals or multiple users. The practical aspects of electronically controlled "bang/no bang" pistols remain to be proven, but some police agencies and even families are interested, and therefore so are some manufacturers who perceive a wider market. The late Jeff Cooper had a standard response when asked what a peculiar new gadget was for: "It's for sale, of course."

Related to "smart guns" is the effectiveness of nonlethal weapons. Defensive sprays must be

used at near arm's length, and are notoriously unreliable. Tasers, which can be highly effective, are limited to one assailant, posing obvious disadvantages against multiple attackers. And though Minitier does not delve into the subject, the increasing frequency of "unarmed" attacks as in "the knockout game" poses risk of severe injury and even death to intended victims. Clearly, handguns carried by trained citizens remain a valid tool against violent attack.

Minitier does not limit his coverage to the United States. Chapter Seven, "What Happens to Disarmed Peoples," provides a short course in the consequences of "common sense gun control" abroad. In the 20th century probably the greatest man-caused plague was "govicide," the result of tyrannical regimes inflicting themselves upon millions of unarmed people. The author delves deeply into the subject, with a close look at published figures from Europe. We learn that Britain, despite its socialist government, has no standard definition for some violent offenses, and multiple crimes by individuals can be logged as single events. Thus, published figures showing "low crime rates" can be inaccurate or misleading.

Minitier notes that in 2007 the *Harvard Journal of Law* published American Don Kates' and Canadian colleague Gary Mauser's study finding an inverse relationship between widespread gun ownership and firearms crime. But as of 2004, Russia's murder rate was three to four times higher than America's, and had been for years. Mean-

while, Norway with Europe's highest gun-ownership rate, has the lowest homicide rate.

Against the background of liberal battering of the Bill of Rights, former NRA President David Keene asks the essential question: "How do you build a constituency around getting people to become victims?"

Yet the anti-firearm agenda persists, although would-be gun banners typically refuse to engage if they cannot control "the microphone." Minitier quotes gun-rights activist Alan Gottlieb who notes that the Brady and Bloomberg campaigns to disarm Americans refused to respond to inquiries from the Second Amendment Foundation.

Minitier concludes the book with an appendix titled, "The Evolution of Freedom's Tool," a sort of Gun Identification 101 with photos of significant firearms from the Kentucky/Pennsylvania long rifle to today's crop including the Glock family and the Remington R-51. Oddly, the latter is the cover illustration, presumably chosen for its racy-spacy lines.

Researchers will benefit from the footnotes with titles of books and articles as well as numerous web sites. That's why books like *Future of the Gun* are increasingly important. They not only reinforce and inspire the pro-gun movement, but they provide the basis for informed discussion and debate with those willing to consider that personal weapons are desirable, beneficial, and – in the age of international and domestic terrorism – essential.

Otis Technology B.O.N.E. Tool and RIPCORD

Otis Technology's B.O.N.E.® Tool effectively cleans the AR-15 bolt carrier assembly area including the bolt, bolt carrier and firing pin.

The RIPCORD™ is a rapid firearm cleaning system featuring Nomex® fibers that act as both a brush to loosen and a patch to capture fouling particles.

Dillon's New Bench Wrench Fits new 1" die lock rings

A characteristic of virtually all progressive reloading machines, regardless of brand, is that the dies are set rather close together. When you are first setting up a "naked" machine, there is plenty of wrench room, but if you have a need to adjust a die afterward, it often requires a delicate touch to maneuver a lock ring on a crowded toolhead.

Dillon Precision has addressed this in two ways. We now offer new 1" die lock rings and a 1" Bench Wrench to fit them. This combination gives much more room to re-adjust dies after they're already mounted. The opposite end of our new wrench is a 7/16" box-end for adjusting the Powder Bar of any Dillon Powder Measure. Our new lock rings fit any standard 7/8" x 14 dies.

Apex Tactical Specialties Armorer's Block

Apex Tactical Specialties' Armorer's Block is designed for S&W Semi Auto M&P Pistols in all calibers, sizes and configurations, including thumb-safety models and the M&P Shield; also for GLOCK® semiauto pistols in all sizes and calibers. The Armorer's Block supports a pistol for armory work and detail disassembly. Its pre-positioned bosses, slots and holes remove pressure from critical function surfaces while pins are driven in and out. High-density polymer construction prevents marring of the frame while driving pins in and out. Made in USA.

TACCOM's **Enhanced Firing Pin** for Ciener/CMMG .22 Long Rifle AR-15 caliber conversions is a direct-replacement firing pin, made from 17-4 S5 heat treated to a condition H900, to present a tough, hard firing pin that won't break or mushroom out after many firings. The tip has been designed to stick out of the hole only .030", so you will not damage your barrel by dry firing your weapon.

K96-19538 \$13.95

The TACCOM **Extreme Extractor** is a drop-in part for your Ciener/CMMG .22 Long Rifle insert that will give you consistent extraction, which is KEY for a reliable firearm. This will help with your live-round extraction, depending on how well the factory has cut the chamber, and the type of chamber cut.

K96-19539 \$10.95

Does your .22 Long Rifle insert move back and forth in your AR upper? The TACCOM **Pressure Plug** will apply a constant pressure on your insert, always keeping it in the most forward position when the rifle is in battery. You can install and remove the pressure plug in seconds with no tools.

K96-19533 \$7.95

You can become a master at using a Mil Dot reticle with this ballistic slide rule! Comes with a 24-page instruction manual.

Mildot Master® **K96-14762 \$29.95**

Schuster Mfg. Inc.
Adjustable M1/M1A Gas Systems

All Schuster Mfg. Inc. adjustable gas plugs are made in the U.S.A. from hardened tool steel, Parkerized and feature a lifetime factory warranty. By adjusting the volume of gas, you change the speed of the op rod and the barrel harmonics. If you're working up your own handloads, a quarter of a turn WILL affect your group size. Includes instructions and the adjustment tool (Allen wrench).

- (1.) The forend features four pieces of equipment rail: a 7" long piece at 12 o'clock, and 2" pieces at 3, 6 and 9 o'clock. (2.) With the equipment rails and sling swivel studs removed, the Tactical Rifle forend's appearance is much more sleek and businesslike. (3.) A plastic cheek piece may be installed, and held in place with four screws, to raise the shooter's face for use with optics. (4.) The Tactical Rifle has a separate pistol grip in the fashion of the AR-15/AK-47/etc.

By Duane Thomas

The Ruger Mini-14 has been popular since its introduction in 1975. Being seen over the years as a sort of "poor man's assault rifle" there is a huge array of aftermarket parts to make it more "assault rifle-y". Recently Ruger decided to get into the act themselves by producing their Mini-14 Tactical Rifles. Available in two stock treatments, one is basically a Ruger Ranch Rifle with black composite stock, the other features the separate buttstock, pistol grip and forend we associate with rifles like the M16/M4/AR-15 and AK-47. I chose the latter for this review.

The Mini-14 Tactical Rifle features a short 16-1/8" barrel. The buttstock is both collapsible and folding, a six-position slider. The rifle may be fired even with the stock folded. When locked open, the stock is rigid and solid.

Installing a plastic spacer, included with the rifle, can raise the stock 1/4". Also the stock has an optional cheek piece, consisting of a curved sheet of plastic that may be affixed around the sides and top of the buttstock, and raised or lowered to fit the individual shooter. At its highest level, the cheek piece raises cheek-to-stock interface another 3/8". Combining the plastic spacer and cheek piece allows the Tactical Rifle to work well with optics.

The buttstock features a thick rubber pad covering over the hollow stock tube, which may be used as a storage area. The forend has four

pieces of removable equipment rail bolted in place, one each at 12, 3, 6 and 9 o'clock. The top rail is 7" long, all others are 2". Should you desire to remove any or all equipment rails, the resulting holes may be filled by plastic cover plates, also provided.

Sights are a wing-protected ramp up front and a low profile adjustable unit at back. We first saw these sights on the Ruger Police Carbine before they migrated onto Mini-14s. As far as I'm concerned these sights fulfill the roll of backup iron sights on an AR-15; they're there, and that's a good thing, but the primary sighting equipment will generally be some sort of optic.

Trigger pulls were typical Mini-14, a two-stage system with a fair amount of takeup, minimal creep and quite a bit of overtravel. The trigger broke right at six pounds according to ye olde NRA weight set. Various "match" trigger systems for the Mini-14 are readily available on the aftermarket.

Complaints directed at the Mini-14 over the decades have centered on its accuracy, or lack thereof. However I'd heard tales that Ruger in recent years had instituted design changes considerably tightening up Mini-14 accuracy. Stories of sub-MOA groups were making the rounds. With claims of increased Mini-14 accuracy dancing in my head, I wanted to give the design every chance to strut its stuff. For me that spells G-L-A-S-S.

Ruger's Mini-14 Tactical Rifle

(5.) A Garand/M1A/M-14 derived trigger-guard mounted safety lever has been standard equipment on the Mini-14 since its very inception. (6.) Ruger currently manufactures and offers for sale both 20- and 30-round magazines for the Mini-14 series. (7.) A multiplicity of options exist for mounting a scope to a Mini-14 despite the necessity to straddle the ejection port, for instance this short piece of equipment rail from Weigand Combat bolts to the rifle's integral scope base. (8.) Best accuracy from the Tactical Rifle was slightly over two inches at 100 yards.

In 1982 with its introduction of the Ranch Rifle, Ruger altered the ejection pattern to be more to the right, less upward, to clear a low-mounted scope. Also the Ranch Rifle incorporated an integral scope base into the design. Current production Mini-14s, including the Tactical Rifle, incorporate both these features, thus mounting a scope over the ejection port for range work was easily accomplished.

Weigand Combat produces a short piece of equipment rail that, when bolted to the rifle's integral scope base, straddles the ejection port while still providing ample clearance for side ejected casings – mine came from Brownells. I mounted to this rail a Trijicon Accupoint 1.25-4x24 variable power scope in a Larue SPR-E mount. The exact same scope and mount had put four of eight loads tested through Ruger's SR-556 piston driven AR-15 into sub-MOA, with a best group of 0.5" with Black Hills 68-grain Match HP so I knew that was an accurate scope/mount combo.

I reposed to the range with the Ruger Mini-14 Tactical Rifle and seven different .223 loads from Black Hills, Federal, Hornady and Winchester. The "tall" mount held the scope high with a lot of overbore, however, fortunately the Trijicon Accupoint has a huge adjustment range; I was able to zero the rifle in short order. When firing the traditional 3-shot groups at 100 yards, I did not find the exquisitely improved accuracy I was hoping

for. My best group (also with the Black Hills 68-grain Match HP) went 2.1". The Federal 40-grain "Blitz" HP went into 2.2". Other ammo printed in the 5" to 6" range.

I did two later range sessions with the Mini-14 Tactical Rifle and other scope mounts, including a set of Weaver rings also mounted to the Weigand rail, and the rings supplied by Ruger that mount directly to the integral scope base, however neither of these options even approached the Larue mount for accuracy. Reliability-wise the rifle worked perfectly through all my testing.

If you can live with the Garand/M1A/M-14 style trigger-guard mounted safety lever and "rock the magazine in" AK-type reload (honesty compels me to admit I prefer the AR-15 pattern's thumb safety and straight-in load), I don't see why a Ruger Mini-14 Tactical Rifle, equipped with a goodly supply of 20- and/or 30-round magazines, couldn't fulfill the "semi-auto assault rifle" niche very well for the person wanting such a tool for home or urban self-defense. If current Ruger Mini-14s are no more accurate than previous production, they're still the same good, reliable rifles underneath they've always been, and the Tactical Rifle variant now has, out-of-the-box, many of the same features its many fans have been applying to it all along.

Extra Loading Data Labels, K96-10446, Package of 100, \$6.95

Try a few of Dillon's heavy-duty, lightweight plastic ammo boxes. If you're like us, you're tired of crumbling styrofoam and cardboard boxes held together with layers of tape. These boxes are perfect for range or field use.

Designed to keep out dirt, dust and rain.

Dillon AkroBins

AkroBins are perfect for reloaders who load several calibers, bullet weights, bullet shapes, etc. We've been including these bins with our machines for years, and now we're stocking them in quantity for our customers.

- The small bins (the ones we use as Square Deal "B" cartridge bins) are 4-3/4" long x 3-7/16" wide x 2-13/16" deep.
- The RL 550B/XL650 cartridge bins are 6-3/4" long x 3-7/16" wide x 2-13/16" deep.
- The 1050 bins are 10-1/4" long x 4-3/8" wide x 4-3/4" deep.
- The double-extra-large bins we use on our SL 900 measure 13-3/4" long x 6-1/2" wide x 6-3/4" deep (all inside dimensions).

AkroBins are made of heavy-duty polypropylene with permanent, molded-in color (ours are blue). They're virtually unbreakable; unaffected by weak acids and alkalis, and are also water, rust and corrosion proof. Hang 'em, stack 'em, rack 'em and fill 'em – you just can't beat 'em! Buy several and get your "stuff" together.

Dillon Utility Boxes

Dillon's Utility boxes are ideal for all those accessories that don't quite fit into the compartments of your shooting bag. The large box measures 13-1/2" x 5-3/4" x 2-1/4" and the small box measures 4-5/8" x 6-3/8" x 1-5/8". Use them for cleaning gear, extra magazines, repair parts, first aid supplies, reloading accessories and tools – the list is endless.

The ERGO Grip Delta Grip™ is the first truly ergonomic grip for J-Frame revolvers. Designed for the most important part of the gun, the shooter, the Delta Grip was engineered to fit the natural point of aim and mechanics of the human hand, wrist and arm. The result is a grip with a superior natural point of aim, comfort and control. Fits round butt J-Frames. Will not fit on Smith and Wesson Bodyguard 38 Model (sku 103037 and 103038). **K96-19684 \$19.95**

Snake Oil is a derivative of an FDA certified medical lubricant used in high-speed medical drills.

- Provides a film that separates and protects moving parts, for smoother operation and increased efficiency.
- Contains no evaporants and has a film affinity in excess of two years.
- Reduces the collection of dirt, dust and other contaminants.
- Performance in extreme conditions is unparalleled.

Sweet's Australian 7.62 Solvent

easily removes powder residue and stubborn copper fouling. It's harmless to steel, a non-acid formula with five percent ammonia. If you shoot a rifle, you ought to try cleaning it with Sweet's.

K96-13128	\$12.95
------------------	----------------

Brian Enos' Far Superior Slide-Glide is a dual grease blend, with proprietary extreme pressure compounds, which boost the ability of the oils in the grease to withstand extreme pressures. It gives the grease a very stringy, tenacious character that makes it stay where you put it.

Slide-Glide Standard is used in warm weather (F60°+), Lite is a thinner viscosity for lower temperatures (F30°+).

Slide-Glide Standard	K96-15571	\$7.95
Slide-Glide Lite	K96-15572	7.95

Micron UltraBlue protects, penetrates and lubricates all surfaces. UltraBlue is in use by the US Army Marksmanship Training Unit, the US Army Pistol and Rifle Teams and the US Marine Corps Pistol and Rifle Teams.

K96-75125	\$9.95
------------------	---------------

FrogLube is a bio-based cleaner, lubricant and preservative (CLP) product. FrogLube Solvents are designed to quickly attack surface fouling, baked-on or filmed residues and other metallic fouling such as lead and copper, while protecting firearms coatings, paints, wood and other materials from the corrosive effects of petroleum-based, flammable and toxic weapons care products.

Dewey's AR-Link Cleaning Pin

utilizes the rear take-down pin in your AR-15 style rifle to hold the upper and lower receivers open for cleaning. It fits AR-15s and AR-10s with take-down pins up to .316" in diameter. To use, 1) Depress the rear take-down pin and pull out. 2) Pivot the upper and lower receivers apart. 3) Insert the pin on the AR-Link into the upper receiver take-down pin tab. 4) Close receivers with the AR-Link inserted into the lower receiver. 5) Push the take-down pin through the channel in the AR-Link to lock the upper and lower receivers into place. 6) Clean your rifle. 7) To remove AR-Link, reverse the above steps.

K96-18599 \$14.95

drymate™

Bore-tips® Bore Cleaning Foam Swabs

The **drymate™** Gun Cleaning Pad protects your table and firearms from scratches and spilled cleaning fluids. Machine washable, durable, stain resistant and long lasting. Gun Cleaning Pad™ K96-11313 \$19.95

No s#!+, there I was...in my office, cleaning my 686 SSR when the boss walks in with that "whisky-tango-foxtrot" look on his face. "Hi," I said (*thinking fast*), "I'm trying out these Bore-tips before I write the **Blue Press** copy for them. They work GREAT!"

The Bore-tips Swabs REALLY DO work. What you can't see under the foam is a plastic jag sized for a tight bore fit which provides for the uniform appli-

cation of solvents and oils. They work with all standard 8-32 thread cleaning rods, and are tough and reusable.

Evolution Gun Works

These two-piece flat checkered mainspring housings with bolt-on mag wells are similar to the patented one-piece S&A design. The mag well and checkered mainspring housing are machined from solid bar steel stock and can be used without the mag well attached, although there will be a small dovetail below (this does not impair function). This is a great replacement for plastic mainspring housings on full-size or commander model 1911s.

Stainless	K96-18600	\$49.99

Adjustable Target Sight for 1911s

This Adjustable Target Pistol Sight is precision machined and fits in a standard "Bomar slide cut." Yeah, the services of a gunsmith are required to cut the slide (unless your 1911 pistol already has a Bomar cut) but the results are worth it.

Adjustable Pistol Sight	K96-18210	\$53.95

ElZetta

Tactical Flashlight Mounts

Every Elzetta ZFH1500 Flashlight Mount for AR15 rifles and ZSM Tactical Shotgun Flashlight Mount comes with sizing adapters, giving the mount the ability to accommodate flashlights from 0.7 to 1.05 inches (18 to 27 mm) in diameter. This includes flashlights from popular manufacturers such as InForce®, Streamlight®, Pelican®, Laser Devices®, SureFire® and of course, the Elzetta® ZFL-M60. (Sizing Adapters are not required when using an Elzetta ZFL-M60 or other 1-inch lights.) The Elzetta ZSM is made from the same advanced glass-filled polymer that has proven itself in the popular Elzetta ZFH1500.

The NEW Elzetta ZRX Tactical Flashlight Mount is made for flashlights with standard one-inch bodies and will accommodate a range from 0.94 to 1.04 inches (23.8 to 26.4 mm). This includes many popular tactical flashlights including the Elzetta ZFL-M60. The Elzetta ZRX clamping rings are made from Mil-Spec Type III Hard Anodized aluminum, the body is a glass-reinforced polymer and the hardware is steel. The ZRX weighs 1.1oz (32g).

 B. Rifle Rest **K96-10883 49.95**
 C. Std. Front Bag **K96-10881 22.95**
 D. Rear Bag **K96-10882 26.95**

*Sand not included.

The Dillon Shooting Mat

Dillon's shooting mat is made of tough ballistic-weave nylon fabric, with a large skid-resistant elbow pad area. The "ground" side is moisture resistant and wipes clean easily. The padding is dense, closed-cell foam to provide both shooter comfort and a stable shooting base. The mat is equipped with a shoulder strap, a carry handle and two straps with snapper-release buckles. Dimensions: 66" x 27.75"

K96-18146 \$65.00

This three-piece shooting bag set is an incredible value for the money! The bags are made of durable, water-resistant 600 denier polyester and provide a steady and solid shooting system for long guns and handguns. I filled the ones in the photo with walnut tumbling media and found them to be easy to fill and much lighter to carry than when filled with sand.

K96-15384 \$29.95

TARAN TACTICAL INNOVATIONS

The **TTI Magazine Extension** for MagPul AR-15 5.56 PMAGs is constructed of machined aluminum.

K96-15770 \$39.99

The **TTI Benelli Extended AccuGuide Carrier** is the first extended carrier ever manufactured from one solid piece of SAE 304 Stainless Steel, which eliminates the need for welding. It is heat-treated and polished, providing optimal performance. The Carrier features an extended guided rail on each side to assist in centering the round while reloading. It will provide you the speed and comfort of not having your thumb torn up after reloading. Compatible with: Benelli M1/M2/M3/SBE, Versamax.

Bushnell's Trophy TRS-25 Ultra Compact Red Dot Sight is designed for use on shotguns, handguns and rifles. It is constructed and assembled by highly skilled craftsmen to Bushnell's high quality standards. The precision and craftsmanship with which this scope was built ensures its performance under demanding conditions. This scope will provide the shooting accuracy and repeatability which have made Bushnell legendary. Features unlimited eye relief and a three-minute of angle dot. TRS-25 **K96-11643** **\$89.95**

SCOUT SCOPE MOUNTS FOR AK, SKS RIFLES

Sorry, the optic pictured here is NOT included with the Scout Scope Mount.

Scout Scope Mounts provide an extremely stable optics base for your AK, Saiga or SKS rifle and will not shift, vibrate loose or change point of impact as the rifle heats up. Rock solid and easy to install, the two-piece design enables the removal and replacement of your optics without losing zero.

Scout Scope Mounts easily allow for complete DISASSEMBLY of your rifle for cleaning and maintenance while retaining zero. These rifles are designed so that carbon build-up can easily be cleaned from the gas tube and piston. This is routine maintenance, necessary in order to maintain a properly functioning rifle. Other mounts for AK-and SKS-style rifles make this difficult, time consuming and then require that optics be re-zeroed.

Scout Scope Mount for AK Rifle **K96-25374** **\$79.99**
Scout Scope Mount for SKS Rifle **K96-25373** **78.99**

OLD DOG/N

The Gunsite

By Peter Caroline

About 20 years ago, I wrote a *Blue Press* article about some college misadventures involving war games in the Columbia dormitories, with Spanish War-vintage Remington Rolling Block rifles and homemade blank cartridges. Shortly afterwards, I received a letter from a fellow alumnus, Roy Berkeley, who had been a class ahead of me. And it was the beginning of a beautiful friendship.

Roy was a gentleman and a scholar, a published author and a polymath. He was also a gun guy extraordinaire. Roy was a graduate of the famed Gunsite Academy (www.gunsite.com) in Paulden, Arizona.

Although he lived in Vermont, Roy made an annual pilgrimage to Gunsite every year and, shortly after I moved to Arizona in 1995, Roy and his wife, Ellen, came to Tucson and we met for dinner at the Arizona Inn. When Roy came to Arizona, we'd arrange to meet, sometimes at his rented digs in Carefree, and at least once at the annual Winter Range Cowboy Action shoot at the Ben Avery Range north of Phoenix.

Roy's description of Gunsite was intriguing, but a bit intimidating. He was an experienced shooter and an old acquaintance of Colonel Jeff Cooper, the Founder. I was, at best, an enthusiast, the new guy on the block. Gunsite was, I thought, a far reach above my skill level.

Roy passed away about five years ago. And I really didn't give much thought to the Gunsite experience until recently, when I got a note from Rob Leahy, the proprietor of Simply Rugged Holsters (www.simplyrugged.com), asking me if I'd be interested in attending a Gunsite writers' shoot and training session. Simply Rugged would provide the leather gear, Ruger (www.ruger.com) would provide a SR1911 Commander .45, and ammunition was donated by a new firm, HPR (www.HPRammo.com), out of Payson, Arizona. I asked my editor, Mark Pixler, if I should put my vast storehouse of ineptitude on public display. Mark, who had recently attended a Scout Rifle seminar at Gunsite, said, "Go for it."

I arrived at the Days Inn in Chino Valley on a Sunday afternoon. After a brief communion with Henry McKenna, I headed out to Simply Rugged headquarters, about five miles away on a dirt road, at an address that wasn't accessible on my GPS. There I found a very well equipped shop and a group of sociable individuals who would be my classmates at Gunsite. We were given sturdy laminated gun belts made to our measurements, Simply Rugged's new "The Shootist" holsters, Dual Defender magazine pouches and many refreshments.

The next morning, as I approached Gunsite's 2,000-acre facility, I saw the academy's Raven

NEW TRICKS

Experience

Gunsite Instructors Dave Hartman, Ed Head and Gary Smith supervise the Presentation Drill.

symbol over the front gate. In Norse mythology, two ravens, symbolizing wisdom and knowledge, were Odin's constant companions. In the classroom, our group of fifteen was introduced to our instructors, Ed Head, Dave Hartman and Gary Smith. We all filled out a release form and a lunch menu, then received a safety lecture and a schedule of activities. Rob Leahy led a discussion on leather gear. We were then given advice about the need for hydration and the possible need for non-prescription painkillers, and told to watch out for snakes. We learned Col. Cooper's four basic rules of gun safety, and Rule Five: maintain control of your firearm. We learned the Combat Triad: Mindset, Gun Handling and Marksmanship. On the table in front of each one of us were our pistols, new stainless Ruger SR1911 Commander-length pistols, with the thumb safety in the standard port-side position, a challenge for southpaws. We were also presented with some nice "swag," an Under Armour backpack with Ruger logo, Dillon Border Shift ammo bag, Militec-1 Bonus Pack lubrication kit (www.militec.com) and other assorted goodies.

At the range, we were taught the Weaver Stance and the Presentation of the pistol. I also learned that, for at least 50 years, I had been doing everything wrong. This was alarming, but not surprising. My only previous formal handgun training was at Ft. Belvoir, Virginia, in the late

1950s. This was back before pistol shooters realized that their off hands were also essential for supporting the pistol. My "stance" might have been charitably described as a modified isosceles. In any event, my instructors were very kind and diplomatic in correcting these deficiencies.

After some familiarization with stance, presentation, sight picture and trigger technique, we were treated to a bit of rain. We went under cover, and listened to a brief presentation from the HPR Ammo representative. I had noticed, while we were loading our magazines, that HPR was unique in providing an easy-to-open box, a far cry from the usual fingernail-splitter. In addition, after a shooting session, my hands were still clean. I don't know what kind of powder they're using, but I'm impressed!

At noon, we broke for a very satisfying catered box lunch. Then, back to the range for more shooting, plus drills on handling stoppages.

My first day had convinced me that I had a great deal to learn, and much more practice was needed. Before class on Tuesday, I stopped by Gunsite's Pro Shop and picked up a copy of the Gunsite Defensive Pistol Training Handbook and a Tactical Pistol 1 video. And of course, I had to buy a Gunsite logo shirt and hat and decals, etc. I probably should not be allowed into such dens of temptation.

Clockwise from above: HPR Ammunition of Payson, Arizona, donated the .45 ACP used for this class at Gunsite. • Visible reminders of the Gunsite Firearms Safety Rules are quite literally EVERYWHERE you look at Gunsite. • Gunsite Chief Instructor Ed Head briefs the class. • Ruger's SR1911 in Simply Rugged's "The Shootist" holster. Photo by Bruce Warren.

Our Tuesday class began with a talk from the Militec people on their line of lubricants. At the range, we practiced rapid fire and quick draw, and then engaged in an informal competition, entitled "The Duck of Death." As the first competitor eliminated, I claimed the dubious distinction of being "The Douche of Death."

We then went on to magazine swaps, tactical and speed reloads, and then the Mozambique drill. Afterwards, as the clouds were looking more ominous, we drove over to the Fun House, for an orientation on how to pie corners, room clearing and target recognition. It was now pouring rain, but we were at least indoors. We were cautioned to take deep breaths, avoid crouching, and please do not shoot any target that does not represent an armed adversary.

Back at the classroom, Ruger's Brandon Trevino gave us more details on the SR1911, and

described how we could each order the very same gun we were using. I was very happy with mine, and with some modifications appropriate to my hand, such as an ambi safety, shorter trigger and slimmer grips, it will be my Perfect Packing Pistol.

We watched a video and discussed the Combat Mindset, and reexamined Jeff Cooper's White, Yellow, Orange and Red conditions of situational awareness. We also got some very good tips on "What to do after a shooting." In short, put down the gun, give the police the basic facts, be polite, request an attorney and STFU. The urge to explain one's self is counterproductive.

After a satisfying dinner, we were off to the range again for a night shoot. Streamlight (www.streamlight.com) had provided us with hand-held lights for this event, and a number of our SR1911s were equipped with Lasergrrips (www.crimsonracelaser.com) or Lightguards,

Clockwise from left: Gunsite Instructor Dave Hartman instructing at the “Fun House” preview. • Author Peter Caroline at Gunsite Founder Colonel Jeff Cooper’s gravesite. Photo by Bruce Warren of *Simply Rugged Holsters*. • Items left behind at Jeff Cooper’s gravesite. Apparently, the most popular offering is a single round of loaded .45 ACP ammo.

which we took turns using. A hand-held light and a green laser are an amazingly effective combination in a pitch-black environment!

On Wednesday morning, we were treated to two simulator or “Fun House” experiences. Contrary to the usual TV scenario of a dozen ninjas smashing through a doorway, throwing flashbangs and tumbling inside, screaming obscenities, this was a one-student/one instructor drill, slow and methodical with occasional gunshots, hopefully at a proper target. On my first shot, I managed to nail one citizen brandishing a bouquet of flowers. My bad. All my other targets were appropriate, although my instructor had to admonish me about my point shooting, rather than deliberately aiming. Rex Applegate, I ain’t!

Our end of the week shoot-off was an *El Presidente* variation. We were paired off with another competitor and, on command, had to engage two

steel plate targets, do a speed reload and try to knock down the appropriate half of a split pepper popper target. On my first go-around, I knocked down the first two targets with one shot each, then quickly knocked down the pepper popper. Oh, shit...I forgot the speed reload! It does not pay to get caught up in the moment.

As I drove through the gate after our last day, two ravens flew out of the field to my left, and disappeared into the trees. It seemed a fitting ending.

I cannot adequately express how impressed I am with the Gunsite experience. The facilities are unmatched, and the instructors are true professionals who make the learning experience a joy. I was initially apprehensive about my physical ability to make it through all the training sessions, but I found that the more I did, the more I wanted to do and was able to do. And I can hardly wait to return!

Cavalry Arms Medical Trauma Kits

Nobody likes to think about it, but should a serious hunting/shooting accident occur, chances are the drugstore "first aid kit" you have stashed under the seat of your truck won't do much good. That's why Cavalry Arms Medical has produced trauma kits designed by Armed Forces medics.

The Cavalry Arms Medical P.T.K. (Personal Trauma Kit) contains a 15-gram package of Celox granules to control serious bleeding, Nitrile gloves, a high-intensity Chem-Light, a six-inch Emergency Bandage with a second pad, and a 4.5-inch Kerlix Roll.

The A.T.K. (Advanced Trauma Kit) contains one 15-gram package of Celox granules, Nitrile gloves, a CPR Face Barrier, two VioNex Anti-Microbial Wipes, a high-intensity Chem-Light, two 4-inch Emergency Bandages, one 4.5-inch Kerlix Roll, two 2-inch Kerlix Rolls, one 3-inch Elastic Bandage, and two 5 x 9-inch sterile Abdominal Pads. All contents of both kits are currently in use by real-world combat medics.
