# Dillon's RF 100 Automatic Primer Filler

***Eliminates the need for primer pick-up tubes!***

***Fills the primer tube while you reload!***

***Clear polycarbonate shield and protective housing***

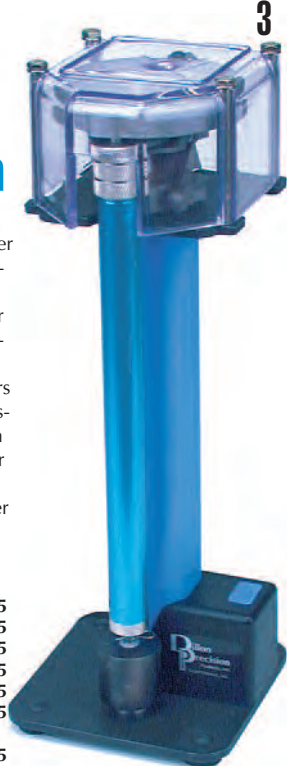

Dillon's RF 100 Automatic Primer Filler eliminates the task of filling primer pick up tubes. Now you simply pour your primers from their box into the top, press the blue button and watch it run!

In about two minutes the primers are inside the protective metal housing. That's about 30 rounds you can load while the RF 100 is doing your work for you!

The RF 100 is available for either large or small primers, and conversion kits are available at one low price of \$47.95 each.

### Mike Laybe: Doctor of QC

About Friday on Friday, October 17, 2014, the shooting community lost a good friend. Those of us at Dillon Precision who worked with

Mike Laybe lost immeasurably more. Mike was 63, but his active lifestyle made him seem MUCH younger, and he alternated between gold mining, handgun and three-gun competition at every opportunity.

Over the 20 years or so that he worked at Dillon, Mike held several positions, including a stint on the phones as a CSR. However, Mike hit his stride in his most recent position as our quality control inspector. The job is an important one: inspecting the component parts of our reloading equipment as they arrive from the vendors.

As he did with every position, Mike approached the quality control inspector position with a high level of professionalism and serious intent. That being said, however, Mike rarely looked "serious." His demeanor would best be described as "easygoing" and it would not be surprising if there was a portrait of Mike next to the definition of that term in some online dictionary. It was rare not to see him smiling, and his sense of humor was legendary.

One of the more enduring running jokes involving Mike was his honorary title of "Doctor Laybe." He earned it because of his bordering-on-obsessive efforts at producing precise and visually perfect reloaded ammunition. At one three-gun match, a fellow competitor discretely inquired as to just what sort of physician was "Doctor Laybe." Mental gears spun up and soon Mike was quietly pronounced as a specialist in the treatment of an area of the body we all have, but seldom mention. At the end of the event, when all competitors usually shake hands, Mike held his out and a few people declined his grasp. Upon explanation, Mike laughed, and then proceeded to expand upon the joke at every match thereafter.

The consensus here at Dillon is that the Almighty came across a quality control issue that demanded the level of expertise only "Doctor Laybe" could bring to the table, and Mike was called to a higher purpose.

If there are shooting matches in Paradise (and true shooters must believe there are in order for it to live up to the name) Mike was there in time to shoot, tape targets and re-steel that weekend.

# Which Dillon is Right for YOU?

Page 8

## SQUARE DEAL B

Our automatic-indexing progressive reloader designed to load moderate quantities of common handgun calibers from .32 S&W to .45 Colt. It comes to you from the factory set up to load one caliber.

Page 14

## RL 550B

The most versatile reloader available, capable of loading over 160 calibers. An automatic casefeeder is available for handgun calibers. Manual indexing and an optional magnum powder bar allow you to load magnum rifle calibers.

Page 20

## XL 650

Truly the state of the art, our XL 650 features automatic indexing, an optional automatic casefeeder and a separate station for an optional powder-level sensor. Available in all popular pistol and rifle calibers.

Page 30

## SUPER 1050

Our commercial-grade reloader includes a swager to remove the crimp from military primer pockets, and is capable of reloading all the common handgun calibers and several popular rifle calibers.

## HP1 Electronic Hearing Protector

- Protection Rating NRR 21
- External battery compartment
- Auto shut off extends battery life
- Extra-deep, replaceable ear pads
- Separate volume controls for each ear
- TRUE stereophonic sound
- Collapsible for ease of storage
- One-year warranty on electronics

Dillon's HP1 Electronic Hearing Protector amplifies weak sounds while at the same time blocking out loud, harmful noise. During loud noises, the HP1 maintains a comfortable level of sound transmission – HP1 Hearing Protectors are designed to never completely shut off. The Dillon HP2 Folding Hearing Protector is comfortable to wear for extended periods and folds for easy storage when not in use.

# A New Look at an Old Friend

## By Peter Caroline

I was an E-2 at Fort Belvoir, Virginia, when I bought my first 1911. We'd been put on 24-hour alert because of some diplomatic mix-up in Lebanon back in the late 1950s. I figured I'd need something a bit handier than my issue M-1 Garand if my unit got shipped over, so I borrowed a ride into Alexandria and bought a clapped-out G.I. surplus 1911 at Hunter's Lodge for \$23. It was really worn and ugly. I brought it back to the barracks, detail-stripped it and took everything but the bare frame and slide to Ordnance, where I swapped all the used parts for new ones. As it turned out, the alert was a false alarm. But it was the beginning of a beautiful friendship.

Since then, I've owned several dozen 1911s of varying makes and models. There's something

very appealing about the venerable warhorse. My latest encounter with my old friend was at the Gunsite Academy in Paulden, Arizona, this past summer. I was invited to a writers' pistol class, sponsored by Simply Rugged Holsters, Ruger, HPR Ammo, Crimson Trace, Streamlight and Militec-1 lubricants. Just bring appropriate clothing and eye and ear protection, they said, and we'll provide everything else. How can one turn down an offer like that?

I was issued a Commander-length Ruger SR1911 .45 for use during the class. Simply Rugged provided their new "The Shootist" holster, along with their Dual Defender magazine pouch and a stout 1-3/4" gunbelt. This is a formidable rig. The Shootist holster is reminiscent of the traditional Mexican loop holster of the old West. It sits

# (And Some Damn Nice Gunleather) <sup>11</sup>

high and very snug on your side. It is surprisingly compact (and unobtrusive under a vest) and holds the gun very securely. After some presentation drills, I found it quite easy to draw the gun quickly and smoothly. The stiffness of the Herman Oak-tanned leather is very helpful when reholstering.

We got a lot of practice in both tactical and speed reloads during the three-day class. Simply Rugged's Dual Defender magazine pouch got quite a workout. It snaps on to the belt, is adjustable for tension and doesn't take up much room at all.

The Simply Rugged belt is the first and last gun-belt you'll ever need. "Heavy duty" doesn't even begin to describe it. Constructed of two layers of Herman Oak pre-dyed leather, glued and sewed together, it is 1/4" thick, and fitted with two leather keepers. The solid brass buckle is secured with Chicago screws. If you require a belt capable of supporting a large handgun, a generous supply of ammo and perhaps a small anvil, this is the one!

Ruger really hit it out of the park with their SR1911. It's a stainless steel pistol available in both standard 5" and 4.25" Commander-style barrel lengths. It's a "Series 70" design, with no firing pin safety needed, thanks to a titanium fir-

ing pin and a heavy firing pin spring. Unlike most 1911s, the plunger tube is machined integral with the frame, so there's no possibility of it ever shooting loose. The magazine release button is extended just enough to make magazine changes a lot faster and easier. The flat mainspring housing was a feature I appreciated, having a small hand.

The SR1911 sights are a 3-dot system with a Novak LoMount Carry rear and a conventional front sight. I noticed that several of my classmates blacked out the rear dots with a Magic Marker. Different strokes for different folks.

I did have a couple of nits to pick...purely individual. I'm left handed, and I have rather stubby fingers. Using a conventional 1911 safety does not come naturally, and I noticed that I was using the tip of my finger on the SR1911's skeletonized aluminum trigger. We carried the gun in Condition One at all times, disengaging the safety during presentation. At the end of the week,

we were told that we could each purchase the gun we used, at a very attractive price. The gun was accurate, and hadn't had on hiccup in all the rounds I put downrange. So, of course I bought it. I had a local gunsmith fit a Wilson ambidextrous safety and a short trigger, both of which solved my problems quite handily.

Shortly after I arrived home from Gunsite, I took the SR1911 to a commercial indoor range. After firing about five magazines full of Winchester White Box 230-grain ball, I noticed a sudden change in my sight picture...there was no front sight. The vertical portion of the sight had parted company from the base, and was somewhere north of the firing point. I emailed Brandon Trevino, the product manager at Ruger. He emailed me back a couple of hours later. Apparently, some of the guns we had used at Gunsite were early production models incorporating a MIM (Metal Injection Molded) front sight, which

exhibited problems, and they would send me a new, machined sight that was now standard production. A while later, he sent another email, saying they'd also include a new night sight that hadn't yet been released to the public. The next day, FedEx delivered both sights, one with a tritium insert.

The tritium sight is in place right now, and works like a charm.

As I mentioned in an earlier *Blue Press* article, Gunsite is THE place to go if you want to sharpen your gun handling skills. And Ruger guns and Simply Rugged leather gear will help you perform at your personal best. I couldn't ask for more than that.

# BL 550 Dillon's Basic Loader

**\$259<sup>95</sup>**

**L02-15399**

Reloading Dies and Caliber Conversions sold separately (see the back of the order blank in the center of *The Blue Press*).

Pictured with optional accessories:  
Strong Mount L02-22051 \$47.95

Dillon's RL 550B has long worn the title of "The World's Most Versatile Progressive Reloader," and stripping it down to its most basic form – Dillon's BL (Basic Loader) 550 – adds a whole new dimension of versatility for the shooter/hunter who needs to feed several rifles.

The BL 550 is essentially an RL 550B without the automatic priming and powder systems. Capable of loading over 160 calibers – just like the RL 550B – it uses any manufacturer's standard 7/8" x 14 reloading dies. It's priced comparably with other manufacturers' turret presses; yet unlike them, it's fully upgradeable to Dillon's Progressive RL 550B loader!

The interchangeable toolhead (*Page 15*) makes it quick, easy and inexpensive to change calibers. For example, if you load .30-06 for elk, .243 for deer and .22-250 for coyotes, you don't even have to change the shellplate. You simply pull two pins and swap the toolhead with your .30-06 dies to another toolhead with your .22-250 or .243 dies in less than 30 seconds! The additional toolheads are \$22.95 each, or \$20.95 each if you buy three or more – if you load for several rifles it's a no-brainer! Once you get your dies adjusted, you'll never have to re-set them.

A powder measure adapter (*bottom right photo*) is available if you want to use a manual measure that you already own. Or, if you want to weigh every powder charge you load, it's easy – you can use a powder trickler with the powder die/funnel assembly that comes with the BL 550.

## Spares, Accessories & Upgrades for AT 500s, BL 550s & RL 550Bs

### AUTO PRIME SYSTEM

#### Includes:

Primer Housing /Shield  
Primer Slides, Large/Small  
Pickup Tubes, Large/Small  
Pickup Tube Tips, Large/Small  
Magazine Tubes, Large/Small  
Mag. Orifices, Large/Small  
Operating Rod  
Primer Track Bearing  
Housing Screws  
Ret. Spring Retaining Pin

**L02-16627, \$82.95**

### PRIMER SYSTEM EARLY WARNING KIT

Allows you to focus on loading instead of worrying about failing to seat a primer, and is an easy slip-on attachment to the auto prime system.

**L02-20302, \$25.95**

### AUTO POWDER SYSTEM

Accurate to within 0.1 grain, our Automatic Powder Measure is world renowned for its charge-to-charge consistency.

**L02-20251, \$87.95**

### OPTIONAL MAGNUM RIFLE POWDER BAR

**L02-21353, \$29.95**

### AUTO EJECT SYSTEM

Greatly increases your ammo production capabilities and adds a Cartridge Chute/Bracket and a Cartridge Bin to your reloader.

**L02-22120, \$30.95**

### AT 500 POWDER DIE

Extra powder dies allow you to move your powder measure from toolhead to toolhead without changing the "belling" adjustment.

**Powder Die: L02-16629, \$19.95**

**Oversize Die: L02-16626, \$19.95**

**Plastic Funnel: L02-16617, \$5.95**

### POWDER MEASURE ADAPTER

If you load rifle cartridges with long-grain extruded powder, you can now use any manufacturer's powder measure with 7/8" x 14 threads on your RL 450, AT 500, BL 550 or RL 550B. (*Requires the use of an RL 450 powder die – see below.*)

**L02-20029, \$22.95**

**RL 450 Powder Die:**

**L02-20308, \$21.95**

# RL 550B

**RL 550B DVD**  
**Instruction Manual**  
 L02-19483 \$19.95

## STANDARD FEATURES:

- Accommodates Over 160 Calibers
- Uses Standard 7/8" x 14 Dies
- Loading Rate: 500-600 Rds./Hr.
- Comes With One Caliber Conversion
- Interchangeable Toolhead Assembly
- Automatic Powder Measure
- Automatic Primer System
- Lifetime "No-B.S." Warranty

*All for ONLY...*  
**\$439<sup>95</sup>\***

**L02-14261**

Reloading dies sold separately.

\*Prices vary on exotic-caliber machines.

Total Price as pictured here with optional accessories: **\$736.60**

.45 ACP Die Set	L02-14404	\$63.95
Strong Mount	L02-22051	\$48.95
Alum. Roller Handle	L02-17950	\$45.95
Low Powder Sensor	L02-16306	\$41.95
Aluminum Bullet Tray	L02-22214	\$41.95
RL 550 Toolholder with Wrench Set	L02-11541	\$28.95
Cartridge Case Bin/Bracket	L02-11185	\$24.95

# RL 550B ACCESSORIES

## A. RL 550B CALIBER CONVERSION KITS

Contains: Shellplate, powder funnel and locator buttons. Available in all calibers; please specify caliber desired.

### L02-RL550B CON-

VERSION \$45.95 (Exotic calibers, \$55.95)

## B. AUTO POWDER MEASURE SYSTEMS

Additional powder measures stay on the toolhead. Never change powder measurements again!

RL 550 Powder Measure **L02-20782, \$76.95 ea.**  
Magnum Rifle Powder Bar **L02-21353, \$29.95 each**  
X-Small Powder Bar **L02-20780, \$29.95 each**

## C. DELUXE QUICK CHANGE ASSEMBLY

With a quick change assembly and a caliber conversion kit (SOLD SEPARATELY), you can convert in less than a minute. Complete with:

- Toolhead
- Powder Measure
- Powder Die
- Toolhead Stand

Price without Dies, **L02-22058, \$103.95**

Loading dies sold separately on Pages 34, 35 & 52.

## D. POWDER DIES

Extra powder dies allow you to move your powder measure from toolhead to toolhead without changing the "bellling" adjustment.

**L02-20064, \$11.35 each**  
Three or more, **\$10.25 ea.**

X-Large Powder Die, **L02-21253, \$19.95 each**

## E. TOOLHEADS

Don't adjust dies when switching calibers. These precision tool holders hold your dies in perfect alignment, making caliber changes quick and easy.

**L02-13909, \$22.95 each**  
Three or more, **\$20.95 ea.**

## F. TOOLHEAD STANDS

The ultimate in convenience for keeping your reloading bench clean and uncluttered.

**L02-22055, \$20.95 each**  
Three or more, **\$18.95 ea.**

## G. 1" BENCH WRENCH

**L02-10842, \$7.95 each**  
Two or more, **\$7.10 ea.**

## H. RL 550B CASEFEEDER UPGRADE

Available for most pistol cartridges – will not work with rifle cartridges.

Large Pistol L02-14450

Small Pistol L02-14451

**\$264.95 (110v US Model)**

Large Pistol L02-14453

Small Pistol L02-14454

- 2 Sm., 2 Lg. **L02-20056 23.95**
- 4 Lg. tubes **L02-20050 23.95**
- 4 Sm. tubes **L02-20049 23.95**

- 2 Pickup Tube, Large, Green Tips
- 2 Magazine Orifices, Small
- 1 550 Primer Cup Spring
- 2 Retaining Clips
- 2 Dispensing Tip, Large
- 2 Dispensing Tip, Small
- 1 Failsafe Bushing Rev. B

**L02-20048, \$18.95**

## L. MACHINE MAINTENANCE KIT

Provides you with everything you need to keep your Dillon loader cleaned and lubricated up to factory specifications. Available in combination with a spare parts kit for your machine.

Maint. Kit & RL 550B Spare Parts Kit **L02-97016, \$32.95**

## M. LOW POWDER SENSOR

Provides an audible and visual reminder when it's time to refill your powder reservoir. When the powder level drops to about 1000 grains, a buzzer will sound and a bright red LED will light.

**L02-16306, \$41.95**

## N. EQUIPMENT DUST COVERS

This packcloth nylon machine cover comes equipped with a D-ring, allowing the heavy duty zipper to be locked.

RL 550B Cover, **L02-13795, \$23.95**

(O.) Master lock, **L02-**

**13083, \$3.95**

Quick-Change Cover (for use with powder measure) **L02-11143, \$14.95**

## P. UNIVERSAL MOUNTING HARDWARE KIT

Includes: 4-Grade 5 Hex Bolts, 4-Lock Nuts, 4 Flat Washers, 4-Fender Washers, 2-Wood Screws.

**L02-14355, \$5.49**

# Dillon Reloading Accessories

**Dillon's Reloading Accessory Package Deals** include: either Dillon's D-Terminator Electronic Scale or Eliminator Balance Beam Scale, a Dial Caliper, a Primer Flip Tray, a Bench Wrench, an 8 oz. bottle of Case Lube, a pair of clear safety glasses, a machine cover and the latest edition of the Lyman *Reloading Handbook*.

SDB (Balance Beam Scale)	<b>L02-14482</b>	<b>\$182.95</b>
SDB (Electronic Scale)	<b>L02-14483</b>	<b>251.95</b>
RL 550B (Balance Beam Scale)	<b>L02-21143</b>	<b>181.95</b>
RL 550B (Electronic Scale)	<b>L02-22117</b>	<b>250.95</b>
XL 650 (Balance Beam Scale)	<b>L02-21430</b>	<b>197.95</b>
XL 650 (Electronic Scale)	<b>L02-22118</b>	<b>266.95</b>

**Dillon's Toolholders** are available for your RL 550B, XL 650, SL 900, and Square Deal B, and ensure that the tools you need to service your reloader are handy and organized. No more digging around your bench trying to find the right size hex wrench!

XL 650/SL 900 with Wrench Set	<b>L02-11555</b>	<b>\$29.95</b>
XL 650/SL 900 w/o Wrench Set	<b>L02-11554</b>	<b>18.95</b>

One-Inch Bench Wrench	<b>L02-10842</b>	<b>7.95</b>
Square-Deal-Only Wrench	<b>L02-19970</b>	<b>8.95</b>

## Dillon's Strong Mounts

increase your machine's "footprint" to over 10",

spreading the load over the whole bench instead of stressing the leading edge. For XL 650 owners with limited overhead clearance, the XL 650-only mount raises the machine 6" above the bench top. All mounts come with all the fasteners necessary to mount your machine and are coated with a durable black wrinkle finish.

RL550/XL650	<b>L02-22051</b>	<b>\$48.95</b>
XL650-only	<b>L02-22052</b>	<b>45.95</b>
Square Deal "B"	<b>L02-22223</b>	<b>64.95</b>

**Dillon's Bullet Tray** is a simple, shallow aluminum bullet tray designed and located for economy of motion. Our tray works on the Square Deal "B", RL 550B and XL 650 when equipped with the RL 550/XL 650 Strong Mount, and a separate kit is available for the RL 1050.

Bullet Tray Kit	<b>L02-22214</b>	<b>\$41.95</b>
RL 1050 Tray Kit	<b>L02-22215</b>	<b>41.95</b>

## Dillon's "Belted Magnum" Powder System

features a maximum-capacity steel powder bar that can dispense more than 100 grains of extruded IMR powder. Magnum rifle cartridges can require from 70 grains to well in excess of 100 grains for a single charge. We tested this system with various extruded rifle powders and found that powder charge variations stayed within plus-or-minus three-tenths of a grain.

Magnum Powder System  
**L02-97126 \$142.95**

## Dillon's Low Powder Sensor

provides an audible and visual reminder when it's time to refill your powder reservoir. When the powder level drops to about 1,000 grains remaining in the reservoir, a buzzer will sound and a bright red LED will light. Designed to fit all Dillon powder measures. Made of clear polycarbonate, it simply replaces the die-cast metal lid supplied with the measure, and operates on two AAA batteries (included).

**L02-16306 \$41.95**

## Dillon's Roller Handle

gives your reloader an entirely new "feel," reduces operator fatigue, and makes primer seating easier.

Alum. Roller	<b>L02-17950</b>	<b>\$45.95</b>
Plastic Roller	<b>L02-22183</b>	<b>40.95</b>

**Quick-Change Cover** for use with powder measure. **L02-11143 \$14.95**

**With Dillon's RL 450 Upgrade** components, you can, either all at once or one assembly at a time, upgrade your RL 450 reloader to an RL 550B!

### RL 450 Upgrade Components

# Dillon's Case Preparation Equipment

**CV-2001**  
**LO2-20493**  
**\$188.95**

**CV-750 LO2-19455 \$144.95**

## CV-2001 – The Industry Standard

Dillon's CV-2001 Vibratory Case Cleaner is the largest in the industry. Its 12-1/2 quart bowl capacity will allow you to polish up to 1,300 .38/.357 or 550 .30-06 cases per hour.

Not only is our capacity greater, but our motor is larger in horsepower, internally cooled, thermally protected, and turns on precision ball bearings. This is no "hobby" machine!

The bowl and base are constructed of 7/32" thick injection molded high-strength polypropylene which is impact and abrasion resistant.

## Case/Media Separators

After we sold thousands of our famous first generation FL-2000 case cleaners, customers who had purchased them began asking us to address the problem of separating the cleaned and polished brass from the cleaning media.

We knew from the beginning that the simplest method of separating would be a rotating squirrel cage, but we had to find a design we could manufacture economically. Our problem was that it had to be BIG – big enough to handle the entire load of the FL-2000 series case cleaners.

The solution was an injection molded reversible part. Simple, and it works great.

Our device is large, 10" x 14", and will hold more than 1,600 .38 Special cases. It sits on a large media collection tub that measures 18" x 22". The tub keeps the mess off the floor and bench.

It's fast – so fast it will remove media from 1500 rounds of .223 brass in a matter of seconds.

## Limited Work Space?

Dillon's introducing the new CV-750 heavy duty Vibratory Case Cleaner for those with limited space. This new case cleaner uses the same motor as the CV-2001 and is every bit as tough – just more compact. To accompany the CV-750, the CM-500 does the same job as the larger CM-2000 Case/Media Separator; and, like the CV-750, handles just about half the capacity of the larger unit.

**CM-2000 Case/Media Separator LO2-20675 \$75.95**

**CM-500 Case/Media Separator LO2-21045 \$47.95**

Although scaled down in size, these two pieces of equipment are every bit as tough as their full-sized counterparts. We used the same materials in their construction and designed them to work just as hard – and do it in a more compact area!

## Attention European Customers:

**Case Cleaners are available in 220 volt!**

**Euro CV-2001 LO2-22047 \$213.95**

**Euro CV-750 LO2-19473 \$169.95**

**All Dillon CV-2001 and CV-750 Vibratory Case Cleaners have a One-Year Warranty on the electric motor.**

## Rapid Polish 290

SHINE? You bet your brass! Dillon Precision has developed another exciting new product to make your reloading faster and easier. Rapid Polish 290 is the first cartridge case finish designed specifically to bring a brilliant shine (20 percent brighter than tumbling media alone) and a protective coating to reloaded

ammunition. Simply add several capfuls to the media in your tumbler and run. Rapid Polish 290 has a great residual value and stays in your tumbling media. You'll use less each time you clean your cases.

*Rapid Polish 290 contains no ammonia, so it won't weaken brass cases!*

### Rapid Polish 290

8 oz. bottle. **L02-13804** **\$8.95**  
Case (20 pc.) **L02-20255** **135.95**

## Dillon Case Lube

Rapid Lube 5000, Dillon's aerosol cartridge case lubricant, has been replaced by an "environmentally correct," non-aerosol case lube. It works the same: Simply lay your cases out, spray lightly with one or two passes and you've done it. No mess, no guesswork. Within minutes the lubricant distributes itself around the cartridge

cases and you're ready to load. Try a bottle. You'll never use a grease pad again.

### D.C.L. Dillon Case Lubricant

8 oz. bottle **L02-13733** **\$8.95**  
Case (20 pc.) **L02-20256** **135.95**

*Half and Half* 10 bottles of polish /10 of lube  
Case (20 pc.) **L02-21375** **\$135.95**

## Don't Forget Polishing Media!

Crushed walnut hull polishing media – quickly cleans even the dirtiest of cases.

15-pound bag **L02-13287** **\$23.95**

Ground corn cob polishing media – the best there is for that final polish.

10-pound bag **L02-13496** **\$15.95**

## Mernickle Holsters' Conceal-Carry Performance Series

If Cowboy Action Shooting is your game, why not CARRY the gun you shoot the most? These holsters can be worn strong side, appendix carry or cross draw and are fully molded. Now also available for J-Frame S&Ws. 4-3/4" SA Colts/clones **L02-11560** 4-5/8" Ruger Blackhawk **L02-15765** Ruger LCR **L02-29030** 2" J-Frame S&W Rev. **L02-15764**

## "Wild Bunch" 1911 Holster & Mag Pouch

This holster/mag pouch was designed in a joint effort by World Cowboy Action Shooting Champion Gene "Evil Roy" Pearcey and World Fast Draw Champion Bob Mernickle when SASS introduced the "Wild Bunch" category for Cowboy Action Shooting.

When these two champions put their heads together, they created a holster and mag pouch that look like they were made at the turn of the century, yet feature state-of-the-art speed and accuracy. The holster is hard molded so as not to lose its shape even after thousands of draws. It spaces the pistol's grip frame

away from your body so you'll get a full combat grip, and the holster includes the T-nut lock system to ensure that it stays in place during a draw.

The mag pouch spaces the magazines so when you grab one mag, the second isn't in your way; above the belt line so the belt doesn't interfere with the draw; and at the max depth required by the sport - and no more - so you'll get a full grip and the ability to index with your forefinger for a rapid mag well insert.

1911 Holster **L02-19947** **\$139.95**  
Mag Pouch **L02-19946** **44.95**

# Dillon's New Rapid Trim 1500 Case Trimmer 23

Dillon's RT 1500 shown installed on an XL 650.

The RT 1500 is used just like a standard size die. The big difference is that while you are pushing the case into the die to size it, an electric motor driving a carbide cutter at 4500 RPM is trimming the case to length. Chips are drawn off through a vacuum manifold that clamps to the outside of the special size/trim die. (Vacuum cleaner and hose not included.) The RT 1500 is equipped with a quick-

disconnect power cord; and it can be used on any standard reloader, single stage or progressive.

The RT 1500 Case Trimmer Assembly **L02-62164** is **\$327.95**. (Available only in 110 volt 60 hz.) Size/trim dies are sold separately (Please see chart below). Replacement carbide cutting blades, **L02-13141**, are **\$19.95** each. Upper lock rings, **L02-13559**, are **\$4.99** each.

# MILITARY BRASS?

## Eliminate the "Grunt Work" with Dillon's Super Swage 600

Until now, reusing military brass, with its crimped primer pockets, has been a tedious task. The Dillon solution is a remarkably simple device that bolts to your bench and allows you to swage the primer pockets with speed and ease. The case is supported from the inside, so you won't be tearing the rims off the brass. A tool steel, hardened swage rod (easy to change from large to small primers) simply rolls the crimp away. No reaming is necessary. Our unique compound cam leverage system assures not only ease of operation, but perfect alignment with each and every round. Sound simple? It is and it works. What's more, it's inexpensive. The Super Swage 600 comes with large and small swage rods.

6.8 SPC Back-Up Rod	L02-62124	\$20.95

# The Safepacker

**THE WILDERNESS' SAFEPACKER™ HOLSTER** is the ONLY mode of concealed carry that I have personally witnessed save a man's life. It's a long story, but suffice it to say that the element of surprise afforded by the Safepacker did the trick. The folks at The Wilderness contend that the Safepacker™ is the best, most versatile and utilitarian holster in the world. I tend to agree, because the one you see pictured at left...is mine.

**Mark Pixler, editor**

The Safepacker can be hand carried like a day planner, equipped with a shoulder strap (not included), slipped into an attaché case, opened with the top flap stuffed between the mattress and box springs on your bed, strapped to a seatbelt, attached to a sun visor, clipped to a backpack, or worn on your hip as a very low-profile "un-holster."

- "Government Model" Safepacker, RH **L02-11703** **\$89.95**  
*"Government Model" Fits: Colt Government Model, GLOCK 17/18/20/21/22, SIG P-220/226, Beretta 92/96, HK USP-45, 4" K-Frame, 3" N-Frame, etc.*
- "Commander" Safepacker, RH **L02-11702** **\$99.95**  
*"Commander" Fits: Colt Commander, SIG P-245/229, HK USP-45 Compact, Tokarev, etc.*
- "Officers" Model" Safepacker, RH **L02-11701** **\$99.95**  
*"Officers Model" Fits: Colt Officers' Model, GLOCK 19/23/30/32/36, Para P-12, etc.*
- "GLOCK 26/27" Safepacker, RH **L02-11700** **\$89.95**  
*"GLOCK 26/27" Fits: G 26/27, Springfield XD Subcompact, Makarov, etc.*
- "J-Frame" Safepacker, RH **L02-11699** **\$89.95**  
*"J-Frame" Fits: S&W Centennial, Taurus M85, Walther PPK, KelTec P-11, etc.*
- "Mustang" Safepacker, RH **L02-11698** **\$89.95**  
*"Mustang" Fits: Colt Mustang, Pony, KelTec P-32, Beretta Tomcat, etc.*

## Close & Ready Bedside Holster Caddy

**Holster NOT Included**

The key to the successful gunfighters of the Old West was not so much the weapon of choice, but rather the holster. How quickly the weapon could be retrieved, aimed and fired was the difference between survival and becoming a statistic. The Close & Ready Holster Caddy provides a faster and safer way to protect your family. It works with most existing holsters and slides easily between the mattress and box springs on either side of your bed.

**L02-18046** **\$29.95**

## The Pistol Sheath by Center of Mass LLC

Center of Mass LLC's **Pistol Sheath** is an adjustable, ambidextrous, multi-fit KYDEX® holster that is durable, affordable and Made in Idaho!

## THE WILDERNESS TACTICAL PRODUCTS

The Wilderness' Original Instructor Belt is an incredibly strong belt with a specially designed "V" ring buckle. Imitation is the sincerest form of flattery, and the marketplace is full of copies of this belt, but none can compare to the original.

We're selling the five-stitch version, which has extra stitch lines to make the belt more rigid vertically in

order to better support holsters, magazine pouches and other gear. This belt is a favorite with law enforcement, military personnel, firefighters, paramedics, etc. Note: The 1.75" belt works best with BDUs or jeans. The 1.5" belt features a scaled-down buckle.

# BLADE-TECH™

## “Revolution” Holster Series

Blade-Tech used its extensive knowledge of Kydex® holstermaking to bring you the Revolution line of holsters. Using a proprietary blend of polymers, Blade-Tech has engineered these holsters to offer lifetime performance in a wide range of conditions. The holsters won't become soft in extreme temperatures (over 300° F) and won't become fragile in low temperatures.

Arredondo Accessories' Magazine-Cleaning Brush is ideal for that little job we all dread (avoid?! No excuse, Sir!

L02-19257 \$11.95

# Dillon's Pistol Die Sets

## Size Die

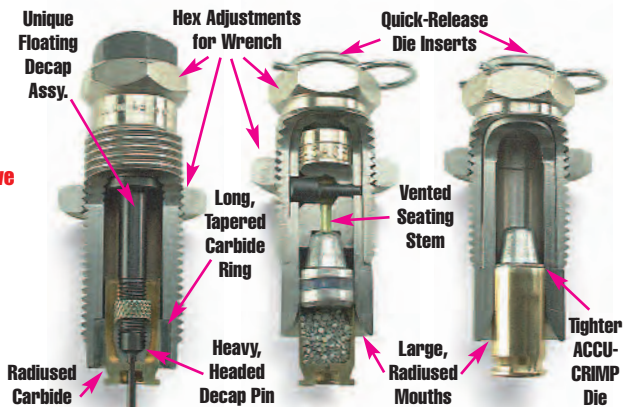

- Floating Decap Assembly Eliminates Primer "Draw Back"
- Long, Tapered Carbide Ring
- Radiused Opening Makes Progressive Loading Smoother

## Seat Die

- Reversible Seating Stem Makes it Easy to Change Bullet Styles

## Crimp Die

- Quick Disassembly, Easy to Clean

### Sizing/Depriming Die

Our sizing/depriming dies feature a unique "floating decap assembly" with a snap spring that throws the spent primer off the pin and eliminates the problem of primer "draw back" that often occurs when decapping military brass. The primary feature of Dillon's size die design – the long, tapered carbide ring with a radiused opening – remains unchanged.

That radiused opening, and its importance to progressive reloading, is one of the reasons why our seat and crimp dies are better. We found a way of manufacturing these dies that has enabled us to make the lead-in radius even bigger! The bigger radius makes progressive loading with our equipment even smoother – but that's still only a part of the story.

### Bullet Seating Die

Our new quick-disassembly seat die allows the user to disassemble and clean the seat die without losing adjustment. In this manner, bullet lube and shavings can be quickly removed from the die, thereby guaranteeing a constant seating depth. We've incorporated a "flip-flop" seating stem and a clip that enables you to remove the die insert and change the seating stem from round nose to semi-wadcutter without unscrewing a seating stem out of the die body. We've always included both types of seating stems, but the new double-ended design makes it a simple matter to remove a pin, reverse the seating stem, make any minor seating depth adjustments that may be necessary and go on loading in a fraction of the time it used to take.

### Crimp Die

We've made it easy for you to remove the die insert for cleaning without having to change the critical crimp adjustment. Once your crimp die is set for the proper amount of crimp, you'll never have to change it. This is especially good news for all of you who load lead bullets! Before, you had to unscrew the die from the toolhead and disassemble the die in order to remove any bullet lube or lead residue. Then, you had to start from square one to re-adjust the crimp. Those days are over. All you have to do now is pop a clip and the die insert drops into your hand for cleaning.

**NOTE: All Dillon Pistol Die sets include our sizer/ decap die, seat die and a separate crimp die. (Taper crimp for autos; accu-crimp for revolvers.)**

# Dillon's Rifle Die Sets

## Size Die

- Full-length, to minimum tolerance
- Carbide expander ball
- Features stuck case remover

## Seat Die

- Designed to hold bullet straight throughout the seating process

## Taper Crimp Die

- Centers case neck and body for a more uniform crimp

Dillon Three-Die Rifle Die Sets include a sizing/depriming die, a bullet seating die and a taper crimp die. Dillon Two-Die Rifle Die Sets include a sizing/depriming die and a seat/crimp die.

### Sizing/Depriming Die

The sizing/depriming die is full-length, to minimum tolerances, sizing cases down to function in semi- and full-automatic firearms. We strongly suggest that a headspace case gage be used to correctly adjust the size die.

For high volume users, such as commercial reloaders, law enforcement agencies, and high power or service rifle competitors, we also offer .223 and .308 die sets with a full-length carbide sizing die. Lubrication is still required, but the increased scratch resistance and die longevity of carbide are of great benefit to these groups of users.

The depriming assembly includes a carbide expander ball for "squeak-free," effortless neck expansion. This expander ball is located in the middle of the depriming stem to take advantage of superior initial leverage for easier extraction.

In the event of a stuck case, the design of the depriming assembly allows it to function as a stuck case remover.

### Bullet Seating Die

Our bullet seating die is internally designed to keep the bullet straight throughout the seating process. Once properly adjusted, the only measurable runout will be that which is inherent in the bullet.

### Taper Crimp Die

The taper crimp die is also specially configured to center both the case neck and the case body, thereby aligning the entire cartridge for a more uniform crimp. Dillon Rifle Dies are designed to meet the more rigid requirements for both accuracy and precision demanded by today's marksman.

A taper crimp die is preferred for loading ammunition intended to be used in semiautomatic firearms with detachable box magazines, and in lever-action firearms with tubular magazines.

### Dillon Rifle Dies (Three-Die Sets)

.223 Remington	L02-10839	\$67.95
.308 Winchester	L02-15574	67.95
.30-06 Springfield	L02-10840	67.95

# Dropping the Hammer:

The SIG P320, left & right sides.

By J. B. Wood

Their current full-page ads say, with a touch of humor, that they have “dropped the hammer” (on their competitors). The statement is also mechanically true, as the new P320 actually has no hammer, it is striker-fired. Construction is polymer-frame, with good steel for everything else.

The trigger system is DA-Only, and there is no manual safety. Internally, there is an automatic striker-block that is cleared only in the last fraction of trigger pull. Actual feel of the trigger is a short, soft take-up, followed by a crisp let-off. Thus, it is possible to “stage” the trigger for careful aiming. On my Lyman Electronic Scale, total average was 8 pounds.

Other than the trigger, the only external controls are the takedown latch, an ambidextrous slide latch, and the push-button magazine release. The last-named part can be reversed for left-hand operation. The magazine has a generous capacity of 17 rounds, information that will be useful only if you live in a free state.

**Considering its quality and performance, the SIG P320 is a real bargain.**

The three-dot square-picture sights are excellent, and you get nicely glowing night-sights as standard equipment. Both sights are dovetail-mounted, so lateral adjustment is possible. A caution, though – it’s best to use a sight-mover, not a hammer and dowel, on night-sights. On my sample pistol, no adjustment was required.

The design of the polymer frame deserves special attention. On the underside at the front, there’s a rail for mounting a light or laser. For the few who still use an obsolete version of the two-hand hold, the front of the trigger guard has a slight hook and cross grooving. The hand part of the grip-frame has a perfect shape for all hand sizes, with no need for backstrap inserts. The entire area has a fine stippled surface.

The P320 is a full-sized pistol, not a compact.

# The SIG P320 Pistol <sup>37</sup>

The numbers: Weight is 29.4 ounces. Overall length, 8 inches. Height, 5.5 inches, and width, 1.25 inches. The barrel length is 4.7 inches. As previously noted, the 9mm magazine holds 17 rounds. In the .40 S&W version, it's 14 rounds.

There are several other nice little design points. On the front edge of the extractor, a small square bump protrudes slightly to tell you the chamber is loaded. For those who prefer that method of cycling, the slide has forward serrations. The smooth, rounded trigger has no vertical grooving. The single-lever takedown is easy.

At the range, I tried the P320 with CorBon DPX, a 115-grain Plus-P load. Distance was the classic

A nice surprise in the kit, a formed polymer holster.

seven yards, standing, and two-hand hold. Five-shot groups were all well centered in the 8-inch black of the Champion VisiShot targets, and measured 2.0 to 3.5 inches. Even with the hot CorBon loads, the felt-recoil was moderate.

The P320 comes in a nice hard-polymer case, with a spare magazine, a cable-lock, and a nice surprise: a formed polymer holster with a quick-on belt attachment. With a suggested retail price of \$713, and considering its quality and performance, this is a real bargain.

# Comp-Tac's Trojan Horse Long Gun Case 39

The Trojan Horse Long Gun Case is the first of its kind: a safe, comfortable, simple and unobtrusive way to carry your long guns with you. No longer do you need to worry about a casual observer spotting you with a "Gun" case as you transport your long guns to and from your car. Instead all they will see is a person with a sports bag. It measures 36" Long, 4"-15" Wide, 4" Deep and features rigid side panels that provide concealment with no printing; an adjustable, padded shoulder strap with side-release buckle on either end; a heavy duty zipper with tactical speed pull attachment for quick deployment; inside divider with Molle straps; and two inside zippered pockets. Will hold up to 20" long barrel with collapsible stock.

Standard Trojan Horse Long Gun Case **L02-19388 \$75.00**  
 Heavy Rated Trojan Horse Gun Case **L02-16229 100.00**

## A DCO SUPER

**ATHUMB®** offers models for popular centerfire pistols and 10/22 style magazines.

**ST1** is for 9mm and .40 caliber Beretta, Browning, Ruger, SIGARMS, S&W, etc. In addition, the ST1 has interior rails and grooves to accommodate Colt Government magazines.

**ST2** is for GLOCK and Para-Ordnance magazines.

**ST3** handles virtually all centerfire, single-column magazines.

**ST22** is for Ruger 10/22 rifles.

**STJR** is for Ruger, Browning, Colt and High Standard .22 pistols.

## AP Custom USA Shotshell Carriers/Caddies, Mag ID Kits

**AP Custom USA's** Shotshell Caddies are 100-percent machined from solid billet aluminum. The **4x4 Shotshell Caddy** holds four 2-3/4" 12 Ga. shells in two adjacent slots. The 4x4 is designed for loading four shells at once, either strong- or weak-handed. The **3x3 Shotshell Caddy** holds three 2-3/4" 12 Ga. shells in two adjacent slots.

The **QL/4 Shotshell Carrier** is a four-round 12 Ga. "quad-load" system consisting of a single QL shell carrier mounted to an adjustable billet aluminum backer plate on a Blade-Tech Tek-Lok. The QL/4 backer plate allows the shooter to adjust the angle of the QL to his or her liking. The backer plate is also drilled and tapped to accept Safariland ELS and Blade-Tech MOLLE attachments. The **QL/8 Shotshell Carrier** is an eight-round 12 Ga. "quad-load" system consisting of a two QL/4 shell carriers.

AP Custom USA's **Mag ID Kits** enable you to color code and number your P-Mags and pistol magazines.

## TACCOM, LLC Tactical and Competition Accessories

**TACCOM, LLC's** Dualload Shotshell Holder is available in 2-, 4-, or 6-Shell versions and can be customized to carry your shotgun ammo in several configurations. The 2Up version can be either attached to a belt or MOLLE gear, and the 4Up and 6Up versions feature a **BLADETECH Tek-Lok™ Universal Belt Clip** (included) that can be attached at various angles. The Dualload allows you to grab two shotshells aligned in such a manner that it makes it easy to load two at a time into your shotgun.

2Up Belt/MOLLE	L02-19530	\$9.95
4Up w/Tek-Lok™	L02-19531	29.95
6Up w/Tek-Lok™	L02-19532	34.95

**TACCOM, LLC's** Quaload Shotshell Holder is a serious game changer! It's so radical that they're patenting the device. The Quaload holds the 2 columns of shells next to one another, you can't get any closer than having them touch. No other quad load device can do this! This allows for you to control how the shell come out of the holder and not have to worry about rim overlay...the rims are already overlapped in the correct position!

4Up Quaload Shotshell Holder	L02-19543	\$39.95
8Up Quaload Shotshell Holder	L02-19544	69.95

\$9.99

# SAVE YOUR BRASS!

Pick up your brass the easy way! This takes the hard work out of policing up your brass. No more aching back from bending over or kneeling at the range!

L02-21894

\$44.95

The **SHELLSORTER** is a simple product designed to reduce the time you spend sorting brass, allowing you to enjoy more time reloading and shooting. The **SHELLSORTER** is comprised of three pans designed to sort several common calibers. The fastest way to sort is to stack all three of the pans together on a common five-gallon bucket, yellow pan on top and black on the bottom; in that way, with a few shakes all your brass is sorted by caliber at the same time. The **SHELLSORTER** is made of ABS, a strong plastic that will give a lifetime of service.

L02-19972

\$39.95

## Stainless Steel Dial Caliper

- .100 per revolution.
- Covered track for longer caliper life - keeps chips out!
- Made of hardened stainless steel.
- Satin chrome finish. No glare.
- Easily read to .001-inch on large, adjustable dial.
- Measuring faces hardened, ground and lapped.

# Concealed Carry Tote<sup>47</sup>

\$45<sup>00</sup>  
L02-18193

Dillon's Concealed Carry Tote accommodates all the tools you need to survive the urban jungle!

This low-profile carry case looks like a mild-mannered-computer-nerd accessory, but it's designed for your pistol as well as your PC! Made of rugged fabric, with heavy duty zippers on all three main compartments – one designed to hold a laptop computer, one for folders and paperwork, and one in the middle for a handgun.

Inside the case are pockets and pouches that will hold spare magazines as well as folding knives, letter openers, flashlights, cell phones, full-sized 8.5" x 11" paper note pads, etc. Measures 13.5" x 11.5" x 6.5" deep.

## 'Plan B' Day Planner

Dillon's "Plan B" Day Planner Holster holds a handgun and a spare magazine or pepper spray, yet it fits in with business clothing and won't draw undue attention. It looks like a typical day planner, but inside there's a holster that's adaptable for either right- or left-hand draw. It fits most .380, 9mm, .40 and .45 caliber autos, including: Beretta, Colt, GLOCK, HK, Kahr, Kel-Tec, Ruger, Taurus, SIG, and Smith & Wesson. Will also hold small-frame revolvers with two- to four-inch barrels.

"Plan B" Day Planner

## Comtech's STINGER

THE STINGER:

Comtech's own personal defense device. Designed to act as a "force multiplier," it's like having the punching power of a karate master – instantly! There's really nothing like it for easy carry and access. It passes un-noticed by 90 percent of people who see it. Yup, just another "keychain device" to most, and yet it works so well when needed. You deserve a Stinger today!

L02-19495 \$9.95

## Baschieri & Pellagri 12 Ga. Target Slug

Reduced recoil, 1200 fps  
25 per box

L02-19214 \$21.00

Streamlight's Nano Light® LED flashlight is super bright (10 lumens), can be seen a mile away, is made of virtually indestructible machined aluminum with an anodized finish, is weatherproof, nearly weightless and fits on your keychain or zipper pull tab!

L02-19942 \$11.95

# Loading for th

By Jim Schmidt, Arizona Ammunition, LLC.

I've been working with Dillon Precision equipment for about 19 years. Just about as long as I have been professionally loading for the .50 BMG rifle. In the early days, the big 50 nearly broke me. Unknowingly, I made the most common loading mistake handloaders make when loading the .50 BMG cartridge – thinking that loading it would be the same as loading .308 Winchester or similar. I found out the hard way that it isn't! Since then, I have become the largest custom .50 BMG ammunition maker in the world. A few years back I was introduced to the Dillon "Big Fifty Reloader" by the Dillon Precision research and development crew when they loaned it to me to test and evaluate for them. This gave me the opportunity to reflect on all I've learned on loading for the big 50 over the years. I've found that the Dillon .50 BMG reloader and its accessories make loading the .50 BMG cartridge MUCH easier.

The .50 BMG case is huge, thick, and tough. A loaded round can weigh a quarter pound! I've actually broken the base off of a reloading press while trying to size and decap a .50 BMG case. Obviously, the primary use for the cartridge is in a heavy machine gun where they're intended to be fired once and discarded. About 90 percent of the cases available for the .50 BMG rifles today are once-fired military. There are some new brass cases available but they're very expensive. Once-fired military cases are typically so dirty that I insist on cleaning them thoroughly as the first step of case preparation. They'll likely have a black material on the inside of the neck that is the sealant used to waterproof them as required in meeting military specifications. Fortunately, this sealant residue is easily removed using a solvent like mineral spirits. Just soak a few at a time and it dissolves fairly quickly.

Why is it important to remove the black sealant? For accuracy loading you *must* have a clean and consistent release of the bullet from the case. If one area or the other of the case neck hangs the bullet up, the release will be skewed and it will affect accuracy. So let's get the case as clean as possible. The process I use is this:

1. Soak the case in a solvent to remove the black sealant. Some light brushing inside the neck may be required. Use a round nylon brush.

2. Flush the case with soapy water (Dawn dish-washing detergent works great) then rinse with clean water.

3. Using a Dillon Vibratory Case Cleaner with walnut media, clean/polish for six hours. This will give it a dull but consistent finish. It will also dry the brass case inside and out.

4. Again using a Dillon Vibratory Case Cleaner and Dillon Rapid Polish 290 with corncob media,

clean/polish for at least six hours for a high shine and clean, smooth finish.

No, I'm not kidding on those cleaning instructions. Once-fired military cases are extremely dirty on the inside and the outside. That dirt, grit and residue can damage your expensive resizing die and its parts. The dirt and debris can also directly interfere with or affect the actual sizing process. So, first, get the cases clean!

One of the most important tools in your loading room for the .50 BMG is a case gauge. The case gauge is used to check the dimensions of the case after you size it. Unlike the smaller calibers, the .50 BMG case may not always size correctly the first time. Fortunately, Dillon Precision offers the case gauge from L.E. Wilson and it's a good one to use. The Wilson unit measures the head-space of the cartridge case and is NOT a chamber gauge. Using the case gauge to inspect your sized .50 BMG cases, you'll find that the once-fired .50 BMG brass may have to be sized several times before it fits in the gauge. Wilson's case gauge also shows you the correct overall length.

Another important thing to know is that even though the sized case fits the case gauge, it may still not fit in your rifle's chamber, depending on how it's cut. Remember that a case gauge measures the cartridge "headspace" and is NOT a chamber gauge. So you also need to check them in your rifle. Part of the incorrect fit can be the length of the brass case. Military cases generally have a little more length to them to accommodate the need for a good crimp on the bullet. That needs to be trimmed off. I find that there's no better way to trim the thick .50 BMG case than to use the Dillon .50 BMG Case Trimmer. The best way to describe the trimmer is that it "rocks and rolls" and deals with the thick case with ease, speed and the precision required to properly trim the thick brass case.

I prefer to have the trimming done before I resize. Once cleaned and trimmed, you're ready to size and decap the case. This can be the toughest thing you have to do to once-fired military brass. Military primers are sealed and tightly crimped in the case and can be very tough to remove. One of the accessories available for the Dillon reloader is a full-length sizing and decapping die. It's the only one available with a smooth carbide insert. The expander ball is also carbide and shaped in such a way that it goes in and out of the brass case with very low friction or damage to the neck and brass case mouth. The long handle and powerful leverage of the Big Fifty Reloader also makes sizing and decapping easier.

Once the case is decapped, you'll see that the flash hole is dirty and should be cleaned, but that comes later. I recommend that you now "process" the brass case that has been sized, trimmed, decapped, and cleaned. You should now chamfer

the inside and outside of the case neck, along with chamfering the primer hole. The military crimp needs to be removed from the primer pocket for the best results in seating the huge .50 BMG primer. If you do not remove the crimp, you can't properly seat the primer. Dillon Precision offers a .50 BMG Primer Pocket Swager. Fortunately, you only have to do this once to each case.

At this point, there are two ways to accomplish the next step. You can clean and polish the brass case again and that will remove the Dillon Case Lube and such. In this process though, before priming, you will need to hand clean the primer pocket hole before seating the primer. I recommend cleaning and polishing BEFORE loading. That way the primer pocket is clean and ready for the primer seating. Or you can seat the primer, charge with powder, and install the bullet and then do a final polish on the loaded round in the Dillon Vibratory Case Cleaner.

So let's proceed with the priming of the case. The .50 BMG rifle performs its best when the primer is "pre-set". All .50 BMG primers are made for a machine gun and they have a huge and hard-hitting firing pin. Misfires are nearly impossible. Not so with the .50 BMG rifle. The firing pin protrusion on the majority of .50 BMG rifles is between 80 and 90 thousandths.

As a comparison a small-caliber rifle's has around 55 to 65 thousandths protrusion. Short "shell holder" bolts on a .50 BMG rifle can have a very short firing pin spring and over time they can misfire on the domed primer. I have seen issues many times with both short and long firing pins. The springs can be too weak. Machine gun firing pins are long and hard-hitting with a very strong spring.

Dillon Precision offers a 50 BMG Primer Seating Die that fits in the Big Fifty Reloader or it can be mounted (with a conversion kit) to the Dillon 50 BMG Primer Pocket Swager. It's a pretty slick setup and easy to use. Once the 50 BMG Primer Seating Die is set it takes one easy stroke to properly seat the primer. Again, far different than your standard small-caliber primer seating. Remember that the .50 BMG primers need to be pre-set or partly "crushed" to work correctly in a rifle. This is where confusion sets in for many who try to load the .50 BMG cartridge. The .50 BMG primer is made for a hard-hitting machine gun and will

come with a "dome" topped configuration. For best results in a rifle, the primer needs to be pre-set (partly crushed or flattened) to depress the "dome". Using only the "flat" primer seater cup it will be easy. You'll want to seat the primer at between 5 thousandths and up to 18 thousandths for the best results. With a little practice, you can check it with a caliper. You do not need the domed cup for rifles.

Now that we have the brass ready to load, the next step is charging with powder and seating the bullet. With the manual indexing on the Big Fifty Reloader and the powder charging system attached as well as the Dillon 50 BMG Primer Seating Die, you can easily put the gunpowder in the case and rotate to the bullet seater and you're done! With the Dillon conversion/adaptor kit for a powder measure, charging the case with powder can be easy and fairly fast. I prefer to measure

each load using my Dillon D-Terminator Electronic Scale.

You need to determine the order you prefer when installing the dies in the toolhead of the reloader. Be sure to keep the shell holder tight with a minimum amount of movement or flexing so you have consistent bullet seating and overall length.

One point that's important in loading for the .50 BMG rifle, and much different than loading for a machine

gun, is that you should not "crimp" the bullet into the brass case. It's a bad thing for rifle accuracy in any of the rifles offered today, even the semi-autos.

If you're using the Dillon Big Fifty Reloader to load for your machine gun (happiness is belt fed) and taking advantage of the 300 rounds per hour loading rate, you'll want to crimp your bullets and use the domed primer cup on your primer seater. All else is the same.

A closing point for those of you loading for and shooting the .50 BMG rifle. My friend Karl Hunstiger is always a "Range Officer" at the .50 Caliber World Championships in Raton, New Mexico, at the NRA Whittington Center shooting range each year. He told me that again the number one problem that competitors have in the famous Fifty Caliber Shooters Association .50 BMG shoot was not firearms malfunctions, failures, or breakdowns; not optics or accessory equipment. Nope, it was the ammunition! Most often the ammunition was made incorrectly.

## **The most common mistake hand-loaders make when loading the .50 BMG cartridge is thinking that loading it will be the same as loading .308 Winchester.**

# 50 "Big Fifty Reloader"

## STANDARD FEATURES:

- 4-Station Interchangeable Toolhead
- Uses Std. 1-1/2"-12 UNF Thread Dies
- Manual Shellplate indexing
- Average Loading Rate: 300 Rds./Hr.
- Loads High Volume/Match-Grade Ammo
- Milspec/Match-Grade Priming System
- Ductile Iron/Carbon Steel Construction

All for ONLY...

## BFR Accessories

### A. 50 BMG CASE TRIMMER ASSEMBLY

Features an industry standard 1-1/2"-12 UNF threaded body, a 1/4 HP motor, replaceable carbide cutter, quick-disconnect cord and includes the .50 BMG trim die.

L02-50050, \$384.95

### B. 50 BMG CARBIDE SIZE DIE

The only .50 BMG size die in the industry that's a full-length solid carbide size die, for increased die life and scratch resistance. It also has a solid carbide expander ball, placed in the middle of the power stroke for easier operation. The die body is standard 1-1/2"-12 UNF thread, and is manufactured to low chamber tolerance specifications.

L02-50075, \$869.95

### C. 50 BMG POWDER MEASURE ADAPTER

For use with the RCBS .50 BMG powder measure.

L02-50125, \$76.95

### D. 50 BMG PRIMER SEATING DIE

One of these is included with Dillon's Big Fifty Reloader, but may be used as an accessory on a separate toolhead. The primer seating die is adjustable for enhanced control of primer seating. Includes two primer punches: one flat, match-style primer punch and one cupped, milspec primer punch.

L02-50200, \$149.95

### E. 50 BMG PRIMER POCKET SWAGER

Makes it easy to remove the military crimp.

L02-50001, \$299.95

### E. (1) PRIMING CONVERSION

Converts Swager to Priming System.

L02-50003, \$76.95

### F. 50 BMG PRIMING SYSTEM

Allows off-the-machine primer seating.

L02-50002, \$299.95

### F. (1) SWAGER CONVERSION

Converts Priming System to Swager.

L02-50004, \$76.95

EXTRA "BFR" TOOLHEADS L02-19831, \$179.95

.50 BMG Seat/Crimp Die

L02-21896, \$114.95

Deluxe Set: 510.5 grains for bullets, cases and powder. L02-12458 \$49.95

## Dillon's New Bench Wrench Fits new 1" die lock rings

A characteristic of virtually all progressive reloading machines, regardless of brand, is that the dies are set rather close together. When you are first setting up a "naked" machine, there is plenty of wrench room, but if you have a need to adjust a die afterward, it often requires a delicate touch to maneuver a lock ring on a crowded toolhead.

Dillon Precision has addressed this in two ways. We now offer new 1" die lock rings and a 1" Bench Wrench to fit them. This combination gives much more room to re-adjust dies after they're already mounted. The opposite end of our new wrench is a 7/16" box-end for adjusting the Powder Bar of any Dillon Powder Measure. Our new lock rings fit any standard 7/8" x 14 dies.

1" Dillon Die Lock Ring	L02-14067	\$1.35
5-Pack of Die Lock Rings	L02-10669	4.15
1" Dillon Bench Wrench	L02-10842	7.95
(Buy two or more 1" Bench Wrenches for \$7.10 each)		
Wrench/Lock Ring 5-Pack	L02-10668	9.95

## Apex Tactical Specialties Armorer's Block

Apex Tactical Specialties' Armorer's Block is designed for S&W Semi Auto M&P Pistols in all calibers, sizes and configurations, including thumb-safety models and the M&P Shield; also for GLOCK® semiauto pistols in all sizes and calibers. The Armorer's Block supports a pistol for armory work and detail disassembly. Its pre-positioned bosses, slots and holes remove pressure from critical function surfaces while pins are driven in and out. High-density polymer construction prevents marring of the frame while driving pins in and out. Made in USA.

Armorer's Block **L02-19536 \$29.95**

# Grace USA<sup>53</sup> Gun Care Tool Set

This custom designed 12" x 9" x 1-1/2" case is made from durable soft Nukaf and contains a 17-piece set of Grace USA Gun Care Screwdrivers (8 ea.), Solid Brass Pin Punches (8 ea.) and a specially fabricated 8 Oz. Brass Hammer. The screwdrivers are hand-assembled and custom hollow ground to fit scope screws, plug screws, guard screws, etc. The handles are turned from quality Maine hardwood and protected with a smooth finish. Made in USA.

## Sun Devil Mfg. AR-15/10 ADIGS

Sun Devil Manufacturing's Adjustable Drop In Gas System for AR-15 and AR-10 rifles allows you to adjust your rifle's gas system for best performance.

**L02-19674 \$59.95**

## EGW AR-15 Forward Assist Plug

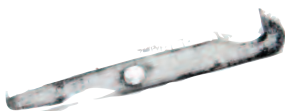

Evolution Gun Works' AR-15 Forward Assist Plug is for use on competition rifles that do not use the forward assist. It's anodized for long life, matted to match most uppers.

**L02-18991 \$9.99**

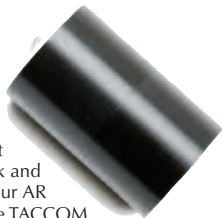

TACCOM's Enhanced Firing Pin for Ciener/CMMG .22 Long Rifle AR-15 caliber conversions is a direct-replacement firing pin, made from 17-4 SS heat treated to a condition H900, to present a tough, hard firing pin that won't break or mushroom out after many firings. The tip has been designed to stick out of the hole only .030", so you will not damage your barrel by dry firing your weapon.

**L02-19538 \$13.95**

The TACCOM Extreme Extractor is a drop-in part for your Ciener/CMMG .22 Long Rifle insert that will give you consistent extraction, which is KEY for a reliable firearm. This will help with your live-round extraction, depending on how well the factory has cut the chamber, and the type of chamber cut.

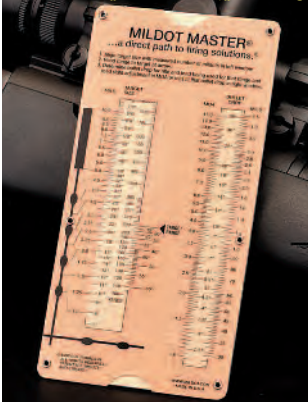

**L02-19539 \$10.95**

Does your .22 Long Rifle insert move back and forth in your AR upper? The TACCOM Pressure Plug will apply a constant pressure on your insert, always keeping it in the most forward position when the rifle is in battery. You can install and remove the pressure plug in seconds with no tools.

**L02-19533 \$7.95**

## MILDOT MASTER

You can become a master at using a Mil Dot reticle with this ballistic slide rule! Comes with a 24-page instruction manual.

Mildot Master® **L02-14762 \$29.95**

## The Larry™ 8 LED Pocket Work Light

The Larry™ 8 LED Pocket Work Light is the essential handyman light. 8 powerful LEDs provide 60 lumens of bright white light. The rotating magnetic clip gives you convenient hands-free lighting. The reinforced plastic body design is shock-proof and water-resistant, making the Larry™ basically indestructible.

**L02-15432 \$9.99**

# Practice Can't Make Per

Want to be able to fire a .45 auto with hardball so well the gun is down out of recoil and aimed-in again when the empty shell casing has travelled only a few inches from the ejection port? Practice.

## By Duane Thomas

One curious thing I have noticed over my years in the gun community is that many people – who have a self-image as serious, dedicated gun people, even gun carriers – never practice. There are people in the world who carry guns they've never fired, and have been doing so for years. I know this is true, because I know some of them. They never practice. Never.

Of course, then you have those people who do practice, but to a very occasional, non-dedicated level. Sometimes you'll meet them out at training classes, and when you've just performed a drill WAY beyond what they can do, they look at you and say, "Well, you *practice*." And lemme tellya what, they are ACCUSATORY about it. Like the only way you can outshoot them is because you're engaging in this underhanded, unfair activity.

Then you have the people who want to blame it on the guns. I went shooting one time with a guy who was SO proud of his custom 1911. Of course, his "custom gun" came complete with 10-pound trigger pulls, had been fitted with a full-sized 1911 spur hammer/short old Commander grip safety combo that ate my hand alive (and normally I don't get bitten by a 1911 with the traditional hammer/grip safety), and frequent failures to feed. It was just generally a POS. So we're doing some shooting drills, him with his custom 1911, me with my near-stock Glock 34. And he can't keep up. But that's okay, I'm not really trying to beat him, I'm just loping along, shooting at my normal level of speed with accuracy. He, on the other hand, was trying to beat me. And even when his gun worked, he couldn't

do it. It wasn't even close. He hadn't put in the time. Finally he said to me, "Well, I guess that's the difference between firing a combat gun and a racegun."

Maybe I should be nicer about it. Maybe I should have allowed his little ego saving self-delusion. Maybe I should have bought into the idiocy. But the truth is I just have a really low BS tolerance for this sort of thing.

My reply was, "Yeah...my Glock 34 *racegun*. You DO know this is just a Glock 17 with the slide and barrel 4/5ths of an inch longer, right?"

"Well, I still think it's the difference between firing a combat gun and a racegun." He was smirking, he had the perfect answer. It couldn't possibly be that I had just worked harder than him.

"Really. And here I thought the daily dry fire sessions and the fact I've fired over 100,000 rounds of live ammo out of Glock 9mms might have something to do with it. Live and learn."

A good craftsman doesn't blame his tools. If you ever want to be a truly superior shooter, you're going to have to pay your dues. There is no way around this necessity. When you run into someone who has just flat worked harder than you on their skill level, enjoy watching those who can shoot better than you. I do. Don't shut yourself off from the knowledge there are people in the world who are better shooters than you, and the possibility for self-improvement that can open up. If you want to be taken seriously by serious shooters, don't say, "Well, you *practice*," or try to blame it on the guns. Just say, "Good shooting," then go home, start dry firing and loading practice ammo.

Duane's website is [Self-Defense-Handguns.com](http://Self-Defense-Handguns.com).

# fect if You Don't Practice

Above: Want to know how various methods of gripping your gun affect how it acts in recoil? Practice.

Right: Want to be able to top your gun off with fresh ammo in a timely fashion? Practice.

## New From Dillon:

### Square Deal B Toolhead Stand

Holds your HSDB toolhead, powder measure, dies and caliber conversion components (not included) in an orderly manner.

**L02-62225**  
**\$24.95**

### Super 1050/RL 1050 Short Trim Die Toolhead

For short rifle cartridges like the .300 Blackout, you must use a Short Trim Die Toolhead when using a Dillon Rapid Trim 1500 Case Trimmer during case preparation. Otherwise, the toolhead is too

thick to facilitate the correct case length. This specialty toolhead enables you to correctly trim and prepare short rifle cases on your 1050. (NOTE: the 1050 toolhead stand is not included.)

**L02-62219**  
**\$224.95**

**64** *Get your "stuff" together, then keep it that way!*

"Small rifle" cases fit .222, .223 to 7.62 x 39 length; 20 round "medium rifle" cases fit 7.62 x 39, .22-250 to .30-06 length; 50 round "medium rifle" cases fit .22-250, .308 to .30-30 length; and "large rifle" cases fit .30-06, 8 x 57 length to all belted cartridges.

Extra Loading Data Labels, L02-10446, Package of 100, \$6.95

Try a few of Dillon's heavy-duty, lightweight plastic ammo boxes. If you're like us, you're tired of crumbling styrofoam and cardboard boxes held together with layers of tape. These boxes are perfect for range or field use. Designed to keep out dirt, dust and rain.

## Dillon AkroBins

AkroBins are perfect for reloaders who load several calibers, bullet weights, bullet shapes, etc. We've been including these bins with our machines for years, and now we're stocking them in quantity for our customers.

- The small bins (the ones we use as Square Deal "B" cartridge bins) are 4-3/4" long x 3-7/16" wide x 2-13/16" deep.
- The RL 550B/XL650 cartridge bins are 6-3/4" long x 3-7/16" wide x 2-13/16" deep.
- The 1050 bins are 10-1/4" long x 4-3/8" wide x 4-3/4" deep.
- The double-extra-large bins we use on our SL 900 measure 13-3/4" long x 6-1/2" wide x 6-3/4" deep (all inside dimensions).

AkroBins are made of heavy-duty polypropylene with permanent, molded-in color (ours are blue). They're virtually unbreakable; unaffected by weak acids and alkalis, and are also water, rust and corrosion proof. Hang 'em, stack 'em, rack 'em and fill 'em – you just can't beat 'em! Buy several and get your "stuff" together.

Description	Stock #	Each	6 ea.	12 ea.
"Square Deal" Bin	L02-13756	\$2.95	\$15.30	\$24.84

## Dillon Utility Boxes

Dillon's Utility boxes are ideal for all those accessories that don't quite fit into the compartments of your shooting bag. The large box measures 13-1/2" x 5-3/4" x 2-1/4" and the small box measures 4-5/8" x 6-3/8" x 1-5/8". Use them for cleaning gear, extra magazines, repair parts, first aid supplies, reloading accessories and tools – the list is endless.

## Dewey's AR-Link Cleaning Pin

utilizes the rear take-down pin in your AR-15 style rifle to hold the upper and lower receivers open for cleaning. It fits AR-15s and AR-10s with take-down pins up to .316" in diameter. To use, 1) Depress the rear take-down pin and pull out. 2) Pivot the upper and lower receivers apart. 3) Insert the pin on the AR-Link into the upper receiver take-down pin tab. 4) Close receivers with the AR-Link inserted into the lower receiver. 5) Push the take-down pin through the channel in the AR-Link to lock the upper and lower receivers into place. 6) Clean your rifle. 7) To remove AR-Link, reverse the above steps. L02-18599 \$14.95

# drymate™

## Bore-tips® Bore Cleaning Foam Swabs

The **drymate™** Gun Cleaning Pad protects your table and firearms from scratches and spilled cleaning fluids. Machine washable, durable, stain resistant and long lasting. Gun Cleaning Pad™ L02-11313 \$19.95

No s#!+, there I was...in my office, cleaning my 686 SSR when the boss walks in with that "whisky-tango-foxtrot" look on his face. "Hi," I said (*thinking fast*), "I'm trying out these Bore-tips before I write the **Blue Press** copy for them. They work GREAT!"

The Bore-tips Swabs REALLY DO work. What you can't see under the foam is a plastic jag sized for a tight bore fit which provides for the uniform appli-

cation of solvents and oils. They work with all standard 8-32 thread cleaning rods, and are tough and reusable.

## Evolution Gun Works

These two-piece flat checkered mainspring housings with bolt-on mag wells are similar to the patented one-piece S&A design. The mag well and checkered mainspring housing are machined from solid bar steel stock and can be used without the mag well attached, although there will be a small dovetail below (this does not impair function). This is a great replacement for plastic mainspring housings on full-size or commander model 1911s.

Stainless L02-18600 \$49.99  
Blued L02-18601 49.99

California Competition Works' Magazine Storage Sleeves make it easy to organize your pistol magazines. The optional I.D. Tag/Hanger makes it less likely that you'll show up at a match with the WRONG magazines!

Four-Magazine Storage Sleeve L02-19226 \$14.95  
Six-Magazine Storage Sleeve L02-19227 17.95  
Magazine Sleeve I.D. Tag/Hanger L02-19476 1.95

## Adjustable Target Sight for 1911s

This Adjustable Target Pistol Sight is precision machined and fits in a standard "Bomar slide cut." Yeah, the services of a gunsmith are required to cut the slide (unless your 1911 pistol already has a Bomar cut) but the results are worth it.

Adjustable Pistol Sight L02-18210 \$53.95

Secure Firearms Products' Universal Spring Tester will help you determine if the recoil spring in your pistol needs replacing, and you'll save time and money by testing and organizing loose recoil springs in your shooting bag.

Recoil Spring Tester L02-15305 \$39.95

MAGPUL 1911 Grip Panels feature reinforced polymer construction and a unique diamond-shaped cross section to prevent twisting in the hand. They also have an aggressive mag-release cut out and are compatible with ambidextrous safeties.

# ElZetta

## Tactical Flashlight Mounts

Every Elzetta ZFH1500 Flashlight Mount for AR15 rifles and ZSM Tactical Shotgun Flashlight Mount comes with sizing adapters, giving the mount the ability to accommodate flashlights from 0.7 to 1.05 inches (18 to 27 mm) in diameter. This includes flashlights from popular manufacturers such as InForce®, Streamlight®, Pelican®, Laser Devices®, SureFire® and of course, the Elzetta® ZFL-M60. (Sizing Adapters are not required when using an Elzetta ZFL-M60 or other 1-inch lights.) The Elzetta ZSM is made from the same advanced glass-filled polymer that has proven itself in the popular Elzetta ZFH1500.

The NEW Elzetta ZRX Tactical Flashlight Mount is made for flashlights with standard one-inch bodies and will accommodate a range from 0.94 to 1.04 inches (23.8 to 26.4 mm). This includes many popular tactical flashlights including the Elzetta ZFL-M60. The Elzetta ZRX clamping rings are made from Mil-Spec Type III Hard Anodized aluminum, the body is a glass-reinforced polymer and the hardware is steel. The ZRX weighs 1.1oz (32g).

ZFH1500 AR15 Flashlight Mount	L02-12020	\$29.95

\*Sand not included.

## The Dillon Shooting Mat

Dillon's shooting mat is made of tough ballistic-weave nylon fabric, with a large skid-resistant elbow pad area. The "ground" side is moisture resistant and wipes clean easily. The padding is dense, closed-cell foam to provide both shooter comfort and a stable shooting base. The mat is equipped with a shoulder strap, a carry handle and two straps with snapper-release buckles. Dimensions: 66" x 27.75"

L02-18146 \$65.00

This three-piece shooting bag set is an incredible value for the money! The bags are made of durable, water-resistant 600 denier polyester and provide a steady and solid shooting system for long guns and handguns. I filled the ones in the photo with walnut tumbling media and found them to be easy to fill and much lighter to carry than when filled with sand.

L02-15384 \$29.95

# TARAN TACTICAL INNOVATIONS

The **TTI Magazine Extension** for MagPul AR-15 5.56 PMAGs is constructed of machined aluminum.

L02-15770 \$39.99

The **TTI Benelli Extended AccuGuide Carrier** is the first extended carrier ever manufactured from one solid piece of SAE 304 Stainless Steel, which eliminates the need for welding. It is heat-treated and polished, providing optimal performance. The Carrier features an extended guided rail on each side to assist in centering the round while reloading. It will provide you the speed and comfort of not having your thumb torn up after reloading. Compatible with: Benelli M1/M2/M3/SBE, Versamax.

Bushnell's Trophy TRS-25 Ultra Compact Red Dot Sight is designed for use on shotguns, handguns and rifles. It is constructed and assembled by highly skilled craftsmen to Bushnell's high quality standards. The precision and craftsmanship with which this scope was built ensures its performance under demanding conditions. This scope will provide the shooting accuracy and repeatability which have made Bushnell legendary. Features unlimited eye relief and a three-minute of angle dot. TRS-25 **L02-11643** **\$89.95**

## SCOUT SCOPE MOUNTS FOR AK, SKS RIFLES

*Sorry, the optic pictured here is NOT included with the Scout Scope Mount.*

Scout Scope Mounts provide an extremely stable optics base for your AK, Saiga or SKS rifle and will not shift, vibrate loose or change point of impact as the rifle heats up. Rock solid and easy to install, the two-piece design enables the removal and replacement of your optics without losing zero.

Scout Scope Mounts easily allow for complete DISASSEMBLY of your rifle for cleaning and maintenance while retaining zero. These rifles are designed so that carbon build-up can easily be cleaned from the gas tube and piston. This is routine maintenance, necessary in order to maintain a properly functioning rifle. Other mounts for AK-and SKS-style rifles make this difficult, time consuming and then require that optics be re-zeroed.

Scout Scope Mount for AK Rifle **L02-25374** **\$79.99**  
Scout Scope Mount for SKS Rifle **L02-25373** **78.99**

# THE GUNFIGHT

By Brian Dervin Dillon and David Erin Dillon

Only a single active cemetery can be found within the city limits of San Francisco, California. This is the old military graveyard at the Presidio, in continual use since its founding in the 1770s. Late 19th century San Francisco, faced with a rapidly expanding population, passed an ordinance against burials within its boundaries in 1902. Subsequently, all the old cemeteries were moved. Except for the Presidio, all of the active burial grounds now lie to the south of the city and county boundary. These begin at Colma, known for the past century and a half by most San Franciscans either as the "City of the Dead" or the "California Necropolis." In one of these cemeteries lie the mortal remains of Wyatt Earp (1848-1929), perhaps the most famous and certainly the most controversial of all American lawmen.

Throughout human history shrines have been places that exert a powerful attraction to the faithful. People make pilgrimages to shrines for many different reasons, for curiosity, but also for spiritual and emotional satisfaction. Some pistol shooters have informal shrines at home, often inside their gun safes, where they give thanks to Samuel Colt and John M. Browning. Others travel from near and far to the Northern California cemetery where Wyatt Earp is buried. Here they visit what has become the shrine of the best-known gunfighter of the Old West.

Wyatt Earp was born in Illinois, the son of a Mexican War veteran, one of nine children and of six brothers. Newton (1837-1928), James (1841-1926), and Virgil (1843-1905) were older, while Morgan (1852-1882) and Warren (1855-1900) were younger. Of the three Earp sisters, Martha (1845-1856), Virginia (1858-1861), and Adelia (1861-1941), only one survived childhood. Too young to enlist in the Union Army like his three older brothers, Wyatt and his younger siblings

instead, accompanied his parents to California in 1864 by wagon train. The Earp family settled in San Bernardino County. Teenaged Wyatt found work as a teamster all over the West, from California to Wyoming. He gambled a little on the side, and by the time he was 20, was also officiating at rough and tumble boxing matches. Earp was six

feet tall, reserved, and quiet. He was fearless, determined, and a crack shot with pistol, rifle and shotgun.

The Earp brothers lived and worked in some of the roughest Western towns like Dodge City, Kansas; Deadwood, Dakota Territory; Las Vegas, New Mexico Territory; and Tombstone, Arizona Territory. Over his long life, Wyatt made a living on both sides of the straight and narrow. At various times he was a buffalo hunter, a miner, a prospector, a stagecoach shotgun guard, a policeman, a deputy Marshal, and a deputy sheriff. At other times, he was a barber, a professional gambler, a

faro dealer, bartender, saloonkeeper, a bouncer in a brothel, a procurer, and even a brothel operator. At a young age Wyatt was also, in rapid succession, a horse thief, jailbird, and escaped prisoner. Later in life, he had the unusual distinction of serving as a lawman in one Western jurisdiction while at the same time being a wanted man in another.

In the Western states and territories after the Civil War law and order was often for sale to the highest bidder and conflicts between lawmen representing different jurisdictions (federal vs. territorial, county vs. city) were common. Lawmen seldom owed their allegiance to abstract sets of laws laid down by national, state or territorial governments, but instead to local judges, mayors, town councils, even ad-hoc groups of large landowners. Many lawmen were little different from hired guns or "enforcers" who also, sometimes, wore badges, at least temporarily.

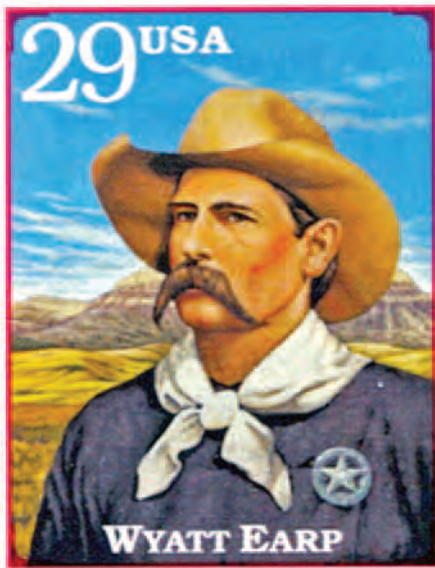

Figure 1: Wyatt Earp as Lawman, commemorated on the U.S. 29-cent stamp introduced in 1994 as part of a "Legends of the West" series. Courtesy U.S. Postal Service.

# TER'S SHRINE

In 1869 Wyatt took his first job in law enforcement, in Missouri, and got married shortly afterwards. Earp was married three times. His first wife, Aurilla Sutherland (1849-1870), died of fever while still only 21 years of age, soon after their wedding. By all accounts, this tragedy sent him off the rails into an early criminal interlude. He may have met his second wife, Mattie Blaylock (1850-1888), a soiled dove, in a house of ill repute. The couple lived together until just after the celebrated shootout at the O.K. Corral. Mattie was an opium addict, and Earp left her for his third and final wife, Josephine Marcus (1861-1944). Mattie eventually overdosed on opium in 1888; her death

was ruled a suicide. Josephine, called Sadie by Earp, was the adventurous daughter of a well-to-do San Francisco merchant family. She was 13 years Wyatt's junior, and they met while she was still a teenager. Wyatt and Sadie spent more than 46 years together, and are buried in the Marcus family plot in Colma near her parents and siblings.

Wyatt's older brother Virgil was the Deputy U.S. Marshal of Tombstone, Arizona Territory. By late July 1880, Wyatt had become the Deputy Sheriff of Pima County, which at the time included Tombstone. He only held the position for a few months, because of a conflict with Sheriff John Behan. The problem was exacerbated when the two men became rivals for the same woman, Josephine Marcus, who later became Earp's wife.

The famous gunfight at Tombstone's O.K. Corral took place on October 26, 1881, with City Marshal Virgil Earp, his deputized younger brothers

Wyatt and Morgan, along with their friend, Doc Holliday, squaring off against Tom and Frank McLaury, Ike and Billy Clanton, and Billy Claiborne. The McLaury/Clanton gang were horse thieves and holdup men. Marshal Virgil Earp had already had run-ins with them, and they had publicly threatened to kill the Earp brothers on several

prior occasions. At the outset of the half-minute shootout at very close range (only 10 feet) Ike Clanton and Billy Claiborne ran for their lives, and the Earps and Holliday killed all three of the remaining opponents. Long after the duel, Virgil was badly wounded and Morgan was murdered, both ambushed by friends of the McLaury and the Clantons. Wyatt

and Warren Earp and Doc Holliday, along with others sworn in as federal marshals, then went after the remaining members of the Clanton/McLaury gang. They hunted down and killed Frank Stillwell, Indian Charley Cruz, Johnny Barnes, and Curly Bill Brocius over a six-month period.

Sheriff Behan issued a warrant for Wyatt's arrest, so he left Arizona Territory, moving to New Mexico, then Colorado, and eventually to San Francisco. Here, in 1882, he was reunited with Josephine Marcus. The couple went off to Kansas, then to Idaho, and back to California, San Diego this time, always taking care to avoid Arizona Territory and Behan's warrants. Meanwhile, Wyatt's par-

ents moved to Colton, near San Bernardino, California, where his father, Nick Earp became Justice of the Peace. Brother Virgil Earp, still recovering from his Arizona wounds, became the Colton City

**Figure 2: One of Wyatt and Josephine Earp's grave markers, made to replace a previous one that was stolen. The above marker was itself stolen and recovered no fewer than three times.**  
*Brian Dervin Dillon photo.*

**Figure 3: Wyatt and Josephine Earp's most recent grave marker, flanked by the Dillon brothers, Brian at left, David at right. The present stone replaces earlier ones damaged or stolen.**  
*John D. Y. Dillon photo, 2013.*

**Figure 4:** A selection of votive offerings left at Wyatt Earp's grave by visitors. Common offerings are live pistol rounds, shell casings, coins, poker chips, dice, cigars, playing cards, imitation lawman's stars, actual police insignia, photographs, and American flags. *Brian Dervin Dillon Photo.*

Marshal. Wyatt and Sadie Earp moved back to San Francisco and then north to Santa Rosa in Sonoma County. Wyatt ran stables, raced horses, and again worked as a boxing referee. His questionable decision at a highly publicized heavyweight bout near San Francisco so outraged spectators that death threats were made against him.

Wyatt and Sadie set off for Alaska for the Gold Rush of 1897, "mining the miners" by running saloons and gambling halls. They returned to the lower 48, first to Seattle in 1899, then, in 1902, to Tonopah, Nevada. Heading back to California, Wyatt and Josephine spent the last two decades of his life summering in Los Angeles, and prospecting all over the Colorado and Mojave Deserts during the cooler months. Earp carried a holstered, big-bore, pistol all his life. He frequently, even into the 1920s, had to be reminded to take it off when attending horse races, boxing matches, or other "polite society" events, when it was adjudged overly provocative. In 1910 Wyatt began working as a contract bounty hunter for the Los Angeles Police Department, making clandestine trips into Mexico so as to kidnap wanted criminals and bring them back to the United States for trial. This connection unfortunately ended when he was arrested by the very same LAPD for gambling fraud. But Earp was not yet done with law enforcement, for a dozen years later, in the mid-1920s; he was made an honorary San Bernardino County Deputy Sheriff.

As Southern California grew to prominence in the American movie industry, Wyatt Earp became the first and most important advisor to early cowboy actors and the makers of "horse operas." This connection lasted through the entire silent era. The Earps now began spending their summers in Hollywood instead of Los Angeles. Characters portraying Wyatt Earp in silent films appeared as early as 1923, while he was still alive. Famous cowboy movie stars William S. Hart (1864-1946) and Tom Mix (1880-1940) were good friends of Earp, and both were pallbearers at his 1929 funeral. The best of all the horse opera directors John Ford (1894-1973), another friend and admirer, was also in attendance at Earp's funeral.

Dozens of books and hundreds of newspaper, magazine, and journal articles have been written about Wyatt Earp and the O.K. Corral shootout, the first appearing during his own or Josephine's lifetime. Earp mistrusted reporters and writers, seldom granting interviews. This did nothing to diminish interest in his life, nor did it inhibit writers from inventing a great many episodes that never took place. Just about everything written about the Earp brothers falls into one of two categories, either spirited defenses, or vitriolic attacks upon them. What most books, articles, movies, and T.V. programs about the Earps all have in common is a near-absence of facts. Accuracy, whenever found, is mostly accidental.

After Wyatt's death in 1929, Josephine Marcus Earp became the guardian and defender of Earp's

reputation. Wyatt's widow was a shameless promoter of a sanitized Earp legend, and did as much as anyone else to blur the boundaries between historical fact and romantic fiction. This trend away from history towards mythology continued even after her own death, perpetuated through the publication of a fraudulent biography attributed to her, but actually fabricated by a writer who supposedly "discovered" a missing diary nearly 30 years after Josephine died in 1944.

And, soon after Wyatt's death, Josephine Marcus Earp became embroiled in legal battles with Hollywood moguls, as she tried to keep film portrayals of her husband positive. Over the years, dozens of actors have portrayed Wyatt Earp on the big screen, from Henry Fonda to Jimmy Stewart to Burt Lancaster to Kevin Costner. Over two-dozen Wyatt Earp/O.K. Corral movies have been made since the 1920s. In the 1950s, they were joined by a T.V. series that ran into the early 1960s. Two Wyatt Earp movies even appeared within a year of each other, the first in 1993, the second in 1994. And, during this latter year, Earp was commemorated by a U.S. postage stamp, part of a "Legends of the West" series (Figure 1).

Ever-increasing publicity through books, movies, and television for nearly a century turned the Earps' gravesite into an attraction. Visitors include admirers, the curious, and those satisfying some kind of personal obligation. Their final resting place has become a shrine to which present-day law enforcement officers, single-action pistol shooters, even foreign tourists enamored of Old West mythology, make pilgrimages. Wyatt and Josephine Earp's headstones became the targets of souvenir-hunting vandals, and visitors chipped small flakes from them to take away as keepsakes. Their first headstone, stolen 70 years ago, may have been found, and we are taking steps towards its return. Their second grave marker (Figure 2) was stolen three times, always recovered from a different location, indicating different thieves. Their very large present marker (Figure 3) was erected about 10 years ago, and so far has not been swiped.

By this time, however, visitation patterns had changed, and most pilgrims to Wyatt and Josephine Earp's final resting place now leave offerings on their grave marker instead of vandal-

izing it. These offerings, not surprisingly, mostly connote gunfighting, gambling, or law enforcement. In many cases they simply commemorate a visit to the open-air shrine to the most famous of all Western gunfighters. Some offerings are left by cowboy wannabes, or by those who watch too much T.V. and who cannot separate fantasy from reality. These take the form of coins, cigars, playing cards, postcards, photographs, poker chips, dice, and even imitation lawman's stars (Figure 4).

But the most sincere offerings made to Wyatt Earp, the Patron Saint of Pistoleros, are by modern pistol shooters, not infrequently law enforcement officers themselves. We know of at least one local agency that has its student candidates visit Earp's final resting place as an informal part of its graduation requirements. At least some of the live rounds left on Wyatt Earp's grave are votive offerings, much like the candles lighted inside houses of worship to punctuate special prayers. These have been left to commemorate a "moment of quiet with Wyatt." The rounds left at Wyatt Earp's grave are not just the .45 Colt and .44-40 ammunition that lawmen used in the 1880s, but also .45 ACP, .40 S&W, .357 Magnum, and 9mm jacketed hollow points, their functional equivalents for today's military and police. Occasionally, even police insignia in the form of shoulder patches, collar badges, and name plates are left in Wyatt's care. Such offerings may be in satisfaction of a vow or promise made earlier, but more likely are intended to propitiate the spirit of Wyatt Earp for future assistance. We hope that he does indeed respond to such pilgrims by granting them good luck, speed and accuracy in their own pistol shooting, especially when the chips are down and these qualities are needed the most.

*About the authors: Brian and David Dillon are brothers, and fifth-generation Northern Californians. The Dillon boys have a tenuous connection with the Earp clan through their mother, a Sutherland, distantly related to Wyatt Earp's first wife. Older brother Brian is an archaeologist, a firearms instructor, a third-generation hand-loader and a regular contributor to The Blue Press. Younger Brother David enjoys restoring antique firearms as a hobby, and has worked for 25 years in the cemetery where Wyatt and Josephine Earp are buried.*

**Competition Reloading with Brian Enos** guides you through a complete step-by-step reloading process for IPSC, Steel Challenge and NRA Bianchi Cup style shooting. Using a Dillon Precision XL 650 reloader with CP brass and CP bullets, Enos demonstrates proper reloading techniques for the most popular loads used by the top shooters. Enos is, of course, a champion himself, winner of the Masters Competition, the NRA Bianchi Cup and a top contender in the USPSA for many years. Run time: 80 minutes.

# RANGE TIME. ANYTIME.

Our Pistol Perfect bullet traps make range time, anytime a real possibility.

Available in 3 different sizes, each trap can handle handgun calibers up to .44 Magnum, and rifle calibers up to .223/5.56mm.

Our patented bullet trap technology ensures the shooter of a safe, clean, virtually maintenance free way to target practice. Lead is deposited into a collection pail, which can be recycled or sold. Talk about convenience!

Visit our website to see which Pistol Perfect Trap will work best for you.

This is the "next generation" Shot Timer here today! Comes with a rechargeable battery with low-battery LCD indicator and a universal charger.

# Cavalry Arms Medical Trauma Kits

Nobody likes to think about it, but should a serious hunting/shooting accident occur, chances are the drugstore "first aid kit" you have stashed under the seat of your truck won't do much good. That's why Cavalry Arms Medical has produced trauma kits designed by Armed Forces medics.

The Cavalry Arms Medical P.T.K. (Personal Trauma Kit) contains a 15-gram package of Celox granules to control serious bleeding, Nitrile gloves, a high-intensity Chem-Light, a six-inch Emergency Bandage with a second pad, and a 4.5-inch Kerlix Roll.

The A.T.K. (Advanced Trauma Kit) contains one 15-gram package of Celox granules, Nitrile gloves, a CPR Face Barrier, two VioNex Anti-Microbial Wipes, a high-intensity Chem-Light, two 4-inch Emergency Bandages, one 4.5-inch Kerlix Roll, two 2-inch Kerlix Rolls, one 3-inch Elastic Bandage, and two 5 x 9-inch sterile Abdominal Pads. All contents of both kits are currently in use by real-world combat medics.

Personal Trauma Kit (P.T.K.)	L02-19220	\$34.95
Advanced Trauma Kit (A.T.K.)	L02-19322	69.95

Open 7-6 MST, M-F; 8-3 Sat. • VISA, MasterCard, Discover, C.O.D. • Shipping and HazMat Not Included
